partnered with our Yuma Colleagues and held a Healthy & Delicious Veggies Virtual to navigate the city traffic.  Our Agricultural Literacy and STEM Education program are 100% online at this time.  Many people appreciate not having to drive to the Summit. Another workshop on Food Safety and the Food Safety Modernization Act Cotton production meeting, and Dr. Ayman Mostafa presented at the SouthWest to our youth.  Our Pesticide Safety Education program continued to offer online offerings in every segment.   Our 4-H program had its virtual Achievement Night, By

videos were an effective alternative in distributing the results of these trials to sugarcane aphid, and root rot were videotaped using drone technologies.  These drone programming.

happened in 2020 are here to stay. I look forward to tackling these changes and adapt Program, which reflect the value they see in this Program. Many of the changes that We conducted a record number of field and lab trials. Our collaborators from the We're planning some incredible stops and social distancing precautions will be in place.

summer Agricultural Institute Arizona dairy industry this spring and late into 2020, local and national dairy Dairy Classic February in recognition of National Pesticide Safety Education Month. The new tool was made available in December 2020. PSEP promoted it again in categorizes results by study manual chapter, helping people to identify topics they about their score, the questions they missed, and the correct answers. The email also shortly after completing the practice test, users will receive an email containing details top of the test so users can practice pacing themselves as they progress through the To develop the testing tool, the PSEP Coordinator purchased an annual subscription to protective equipment, and safe pesticide handling practices. By

service staff to support their efforts during this month to promote National Nutrition nutrition can do for individuals, along with thriving through good health that food and needs, becoming more familiar with different areas of dietetics in our communities, and The final week's theme is Consult a Registered Dietitian Nutritionist (RDN).  This topic trying new flavors and foods with family. The first week's theme is Eat a Variety of Nutritious Foods Every Day.  This includes the food dollar and eating more healthy.  Ideas include choosing healthful recipes, using from all food groups daily, healthy hydration, and taking time to eat snacks and meals everyone to learn more about nutrition and educating themselves to making informed March is National Nutrition Month® across America, and it is an annual campaign everyone.
