Continuing Education Credits for professional applicators. The Fields Crops/IPM program continued reaching out to the agricultural community. There was a 2021 summer Agricultural Institute举办了，Submissions are due by March 12th. The Arizona Pesticide Safety Education program continued to offer online courses, videos were an effective alternative in distributing the results of these trials to attendees. Presenters of the two workshops came from different universities and continued to communicate with clientele through the weekly newsletter, phone calls, and that was helpful to solve the problem. Over 12 timely presentations to disseminate results to the audience.

Summer Agricultural Institute is an opportunity for Arizona youth. Even with the severe impacts to the programs, the organizers were pleased with turn out and ‘good vibes’ had by all in attendance. Youth were able to compete in showmanship, breed, and costume contests. Show organizers expect next year’s event to be even bigger. The organizers hope to attract even more dairy industry professionals and dairy farmers in the following years. Arizona Youth Compete in the First Arizona Fall Dairy Show.

The Pesticide Safety Education Program (PSEP) Coordinator created a new online practice testing tool for the Pesticide Certification Core Exam. The tool is available for free at the PSEP website. Shortly after completing the practice test, users will receive an email containing details on how to download their results. The tool is a 90-minute timed test, consisting of 90 multiple-choice questions. The same team that wrote the National Core Exam and embedded a 90-minute timer along with many simulation questions.

The final week’s theme is Consult a Registered Dietitian Nutritionist (RDN). This topic will cover topics like trying new flavors and foods with family. Week three’s topic is Learning Skills to Create Tasty Meals. The fun subtopics include making a grocery list to shop for ingredients, and being menu-savvy when dining out and being mindful and without distraction. The second week has a theme of Planning Meals Weekly. This is helpful in stretching food choices and developing healthy eating and physical activity habits to last a lifetime.

March is National Nutrition Month® across America, and it is an annual campaign of the American Dietetic Association. This campaign provides free nutrition education for parents, caregivers, and teachers that can be used in the classroom, clinic, or lunchroom. The campaign is a fun way to encourage kids to try new foods. It is a great opportunity for families to come together and try new flavors and foods with family.
