Pesticide Safety Education Program (PSEP) Coordinator created a new online training tool to prepare users for the certification exam. The tool includes in-depth instruction, practice questions, and a testing environment. The PSEP Coordinator, Jennifer Weber, is working with the Arizona Agricultural and Consumer Services (ACS) and the Arizona Department of Agriculture and Consumer Services (ADACS) to create the certification exam.

March/April 2021   Issue #3

March is National Nutrition Month®

As we all deal with the ongoing pandemic and seek new ways to maintain healthy eating habits and physical activity, March is the perfect time to focus on National Nutrition Month®. National Nutrition Month® is a nutrition education and information campaign that focuses on eating right, being active, and maintaining a healthy weight.

The final week's theme is Consult a Registered Dietitian Nutritionist (RDN). This topic focuses on tips on how to find a Registered Dietitian Nutritionist for personal dietary needs, becoming more familiar with different areas of dietetics in our communities, and getting new perspectives on food and nutrition. For more in-depth information on the above overview on National Nutrition Month®, visit [https://extension.arizona.edu/maricopa](https://extension.arizona.edu/maricopa).

AAMG Sessions Are Launched

Ask a Master Gardener launched. Once a week, the AAMG sessions are offered as hour or longer sessions facilitated and tabulated our transactions. Attendees register through Eventbrite prior to the event. During registration, attendees have the opportunity to select a session timeframe. Attendees will be sent a confirmation email with a Zoom link, password, and any other pertinent information.

Master Gardener Program

In March, we are taking a ‘deep dive’ into Arizona’s water. We are hearing from people involved with the challenges of the water. The Arizona Water Awareness Month is sponsored by the National Water Resources Association and the Arizona Water Resources Association. We are offering questions, publications, and advice to participants, allowing attendees to refer to them. The day prior to the event, all the questions will be answered and the AAMG will launch a series of educational sessions. Attendees will be able to attend one or more sessions.

Regional Water Rights Trial

In Maricopa County, the Regional Water Rights Trial is an ongoing case that has been going on since 1956. The trial is currently being heard in the United States District Court for the District of Arizona. The trial is expected to last several years. The case is being heard by Judge Susan Bolton, who is overseeing the trial.
