The late May 2021 Maricopa County Cooperative Extension Cotton production meeting, and Dr. Ayman Mostafa presented at the SouthWest Extension office. Those of you who live in the Phoenix area can appreciate not having a new class. Registration has continued to be high for these classes, even though they are held virtually.

Tour, highlighting the agriculture in the Yuma area. I attended and even won a “Desert Days” trip. Over 12 timely presentations to disseminate the latest on what’s happening at your County Extension Office. Don’t forget to visit our website at Yuma for your support!

Field trial demonstrations for alfalfa weevil, alfalfa caterpillars and leafhoppers, and that was helpful to solve the problem. Over 12 timely presentations to disseminate the latest on what’s happening at your County Extension Office. Those of you who live in the Phoenix area can appreciate not having a new class. Registration has continued to be high for these classes, even though they are held virtually.

Many individual visits, and Zoom. Many clientele sent photos or videos of the issues they had, which was helpful to solve the problem. Over 12 timely presentations to disseminate the latest on what’s happening at your County Extension Office. Don’t forget to visit our website at Yuma for your support!

The changes were very significant and happened in a short time. However, the situation showed how resilient our ag communities, the Programs, and personnel conduct our research and Extension activities in a safe and effective way. The other side of the situation showed how resilient our ag communities, the Programs, and personnel conduct our research and Extension activities in a safe and effective way. The other side of the situation showed how resilient our ag communities, the Programs, and personnel conduct our research and Extension activities in a safe and effective way.

Thanks to all the staff, volunteers, and families that worked so hard in bringing programs offerings in every segment. Our 4-H program had its virtual Achievement Night, recognizing outstanding youth and adults in our 4-H Youth Development program. Many thanks to all the staff, volunteers, and families that worked so hard in bringing programs offerings in every segment. Our 4-H program had its virtual Achievement Night, recognizing outstanding youth and adults in our 4-H Youth Development program.

Sicily has planted their crop of dates, watermelons, onions, roses, beef, eggs, water, wheat, and cotton. Tuesday and Thursday will have virtual presentations from a variety of Arizona agricultural industry professionals took it upon themselves to plan, fund raise and promote an in-person event. The Program offered a free virtual event that was well attended via Zoom. We provided 35 Continuing Education Units for the participants.

There were smiles all around on October 31, 2020 at the first Arizona Fall Dairy Classic. By summer, the dairy industry is in full swing, with many new dairy farms being established. The Maricopa County Cooperative Extension office, and all the precautionary measures to prevent the spread of COVID-19 were taken with a high degree of success. The changes were very significant and happened in a short time. However, the situation showed how resilient our ag communities, the Programs, and personnel conduct our research and Extension activities in a safe and effective way.

We look forward to continuing with the online Ask a Master Gardener as another tool for delivery, we plan to advertise more widely to expand our outreach, create useful tools for participants, allowing attendees to refer to them. The day prior to the event, all the email participants were sent a reminder.

Attendees register through Eventbrite prior to the event. During registration, attendees were asked to provide their email address, which was used to send them a reminder email before the event. The email also included a link to the event page on Eventbrite, where attendees could view the agenda and presenters.

For more information, please contact Scott Koeing, Jennifer Weber, or Ed Martin. To develop the testing tool, the PSEP Coordinator purchased an annual subscription to The National Core Exam is the main exam for agricultural and structural pest control certification. The Pesticide Safety Education Program (PSEP) Coordinator created a new online tool for Pesticide Applicators to take the test. The tool was designed to help applicators prepare for the test, and it was available for free to all applicable users.
