**PRP Injections, PRP
Microneedling & PRP Hair
Restoration Special**

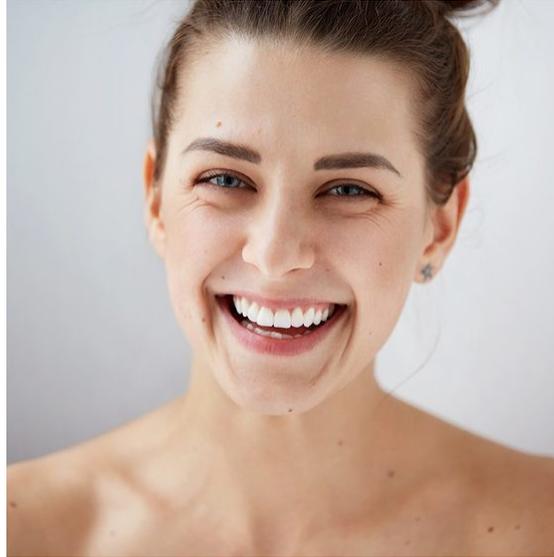

\$575.00 per treatment

(\$225 savings per tx)

WRINKLE INJECTIONS OR MICRONEEDLING- PRP therapy is an exciting and natural way to boost collagen and elastin in the skin, using your own platelet-rich plasma (PRP). The platelets produce Growth Factors to promote elastin and collagen. Wrinkles and texture continue to improve for months after treatment.

HAIR - Studies show that PRP is effective in promoting new hair growth. Your own platelet-rich plasma (PRP) is injected into areas of hair loss in a relatively pain-free procedure that requires little down time. Generally,

we recommend three treatments over a 4-month period to ensure effectiveness. PRP hair restoration can be used for multiple causes of alopecia (hair loss for both men and women).
