Happy Holidays!

In working with Stanford medical students, please submit your Feedback.

Fall Quarter 2021 kicked off new Valley Fellows and their projects.

Congratulations to our Valley Fellows and their Community Partners, team!

Happy, healthy, and safe holiday season.

The only way for us to move out of this pandemic is by continuing to take care of each other. Wishing you a happy, healthy, and safe holiday season.

To our partners and constituents who have been a driving force behind our efforts in vaccine distribution, we thank you. Our efforts to mitigate measures and help get vaccines to people who need them locally and globally. The only way to make vaccines (and boosters!), and we have treatments. Let's stay the course with personal mitigation measures and help get vaccines to people who need them locally and globally. The only way for us to move out of this pandemic is by continuing to take care of each other. Wishing you a happy, healthy, and safe holiday season.

While our festivities looked quite different from our last in-person celebration in 2019 (masks, physical distancing, squirts of hand sanitizer at every turn!), it was nice to be together again. Talking in-person instead of conversing out of our little Zoom rectangles and slack channels just felt so much more… normal. While we should be vigilant about the Omicron variant, it is also important to keep in mind that the world is still recovering from the effects of the pandemic.

Upinder Singh, MD: Professor of Medicine, Infectious Diseases & Geographic Medicine and of Microbiology & Immunology, Stanford Medicine

Yessica Martinez Mulet, MD: Co-Director of the Post-Acute COVID-19 Syndrome (PACS) Clinic, Department of Medicine, Stanford Medicine

Kashish Kumar, Moderator: Microbiology & Immunology, Stanford Medicine

Clinical Associate Professor of Medicine, Infectious Diseases, Stanford Medicine
