Health Center of Santa Clara Valley

Congratulations to our Valley Fellows and their Community Partners, who kicked off fall quarter 2021 with new projects and work! Annual Community Health Symposium on Wednesday, March 23, 2022, where they will present their projects. Our festivities looked quite different from our last in-person celebration in 2019 (masks, streaming shows, and everything in between). While our festivities looked quite different from our last in-person celebration in 2019 (masks, streaming shows, and everything in between), in-person instead of conversing out of our little Zoom rectangles and slack channels just felt so much better. Your support has helped us do the work we love, and built a gratitude tree as part of our journey to healing. Thank you for your partnership and support of our mission. We look forward to seeing you soon. Stay tuned for updates!

Hello! It’s the People’s Health Briefing Your Trusted Voice for COVID-19, Known for their primary care services aimed at improving the health and well-being of our communities, Roots Community Health Centers are fortunate to work closely with both the East and South Bay locations through various projects, including the Winter Quarter 2022. Come hear more… normal. While we should be vigilant about the Omicron variant, it is also important to celebrate everything we have vaccines (and boosters!), and we have treatments. Let’s stay the course with personal mitigation measures and help get vaccines to people who need them locally and globally. The only thing that will move us out of this pandemic is by continuing to take care of each other. Wishing you a Happy Holidays from OCE!
