Happy Holidays!

EILEEN O’GORMAN, Associate Director of Community Engagement

We continue our efforts addressing inequities in melanoma detection and treatment. In December 2021 we conducted two public conversations on the importance of sun safety and the latest on melanoma prevention and treatment. Join us in welcoming Research Coordinators, Jessica Hernandez, MA, and Yessica Martinez Mulet, MS, former Atlanta-based Community Health Workers, to our Stanford Community Health Engagement Team! Their skills, knowledge, and commitment to the community are valuable tools in our ongoing work to improve health outcomes for everyone.

Thanks again for your contributions to a successful COVID-19 Community Town Hall this past year. Your service to our community is immeasurable!

We are sharing a variety of upcoming opportunities to make an impact in the communities we serve:

**CARDINAL COURSE**

trueRemove, a Stanford Graduate Students program, will host the four-part series, "The Science of Community Engagement in Health Research" on Tuesdays in Winter Q 2022. Drs. Wei-ting Chen, Associate Director of Community Partnerships, and Lisa Goldman Rosas, MD, MBA: Professor of Medicine, Infectious Diseases & Geographic Medicine and of Microbiology & Immunology, Stanford Medicine, will share foundational skills in diverse community engagement methodologies, and tools for examining the application of community engagement in health-related research topics and practice.

**BIOGRAPHY**

trueRemove is a student-run program committed to improving health in the community. Stanford Graduate Students enroll today in, The Science of Community Engagement in Health Research (EPI 272) course, with Patricia Rodriguez Espinosa, PhD, MPH, Chair of the Department of Community Health & Prevention Research (CHPR), at the Stanford School of Medicine. Dr. Espinosa’s research expertise is in the development and implementation of community-based participatory research (CBPR) and integrating community resilience-building strategies with health system improvement tools to inform, develop, and implement disease prevention and urgent care programs.

**EDUCATION**

In preparation for our Winter Q class, please email us at communityengagement@stanford.edu for more information on any of the above subjects.

**RESEARCH**

Located on the Stanford campus in Palo Alto, Stanford Population Health Summer Program (SPHP) is a cutting-edge, student-focused, interdisciplinary summer program that offers the opportunity to gain experience in health care delivery. SPHP participants will be paired with experienced mentors and have the opportunity to develop skills and apply them to diverse health-related research topics across the field and practice settings.

**CONTACT US**

UPDATE STORIES

**COMMUNITY PARTNER HIGHLIGHT**

Roots Community Health Centers - San Jose

Known for their primary care services aimed at improving the health and well-being of African-Americans. Roots has played a significant role in the pandemic with, "The People's Health Briefing Your Trusted Voice for COVID-19 Updates in Oakland!" by Dr. Noha and her amazing team. We have been fortunate to work closely with both the East and South Bay locations through various projects, on completing their fellowship projects. Thank you to our friends, for good health, for really great meet basic needs, for family and community partners who help people treatments and vaccines, for gratitude for medical personnel and end-of-year celebration. We shared Last week, our team came together Happy Holidays!

**FEATURED SPEAKERS:**

Dr. Wei-ting Chen, Associate Director of Community Partnerships, and Lisa Goldman Rosas, MD, MBA: Co-Director of the Post-Acute COVID-19 Syndrome (PACS) Clinic, Stanford Medicine -

**COMMUNITY ENGAGEMENT**

We believe partnerships are the foundation of health equity and a true solution to the challenges we face. To continue our efforts addressing inequities in melanoma detection and treatment, we are sharing a variety of upcoming opportunities to make an impact in the communities we serve:

**19TH ANNUAL COMMUNITY HEALTH SYMPOSIUM**

SAVE THE DATE!

Thursday, January 27th, 2022

In working with Stanford medical students, please submit your proposal for the 19TH ANNUAL COMMUNITY HEALTH SYMPOSIUM on Wednesday, March 23, 2022, where they will present their highlight of the year. The San Mateo Health Center of Santa Clara Valley team!

In January 2022 we will be offering a free, four-part series, "The Science of Community Engagement in Health Research," with course materials and. The only way to approach public health is to confront the facts, it was nice to be together again. Talking while our festivities looked quite different from our last in-person celebration in 2019 (masks, physical distancing, squirts of hand sanitizer at every turn!), it was nice to be together again.
