CINA 2021 Annual RFP Now Open for Submissions

CINA invites all interested researchers and organizations to submit proposals that address four proposed research themes focused on: Cyber Crime, Human Trafficking, Transnational Crime, and Combating Illicit Trafficking.

The opening of George Mason University’s new Forensic Science Laboratory in the Spring 2021 semester gives us an opportunity to celebrate the new facility and support the field of forensic science and related sciences for years to come.”

Save the date for our upcoming Distinguished Speaker Series event taking place on February 17, 2021, featuring Celina Realuyo, former FBI profiler, called the new facility an “incredible initiative that will distinguish Mason in the field of forensic science and related sciences for years to come.”

CINA recently brought on Deanna Austin to head Workforce Development. CINA Recruits Deanna Austin

CINA’s Kerry Riddle Recognized as Mason’s Employee of the Month

Kerry Riddle was honored with the award for demonstrating initiative and providing exceptional support to CINA.

Mary Ellen O’Toole has been honored as a fellow of the Academy of Forensic Science, an international honor society for forensic scientists.

You’re invited to submit articles, photos, videos, and story ideas to include in upcoming newsletters. Submit your ideas on our website and in the upcoming CINA newsletter.

The CINA mission is supported by three core activities: help DHS with current problems, foresee DHS challenges and opportunities of the future, and help educate the current and future workforce. As part of the second activity, the CINA Science Committee this month initiated a focused effort to look over the horizon with respect to criminal operations and the future DHS workforce.

CINA’s spring 2021 speaker series events:

March 17: Dennis Faro, Deputy Assistant Director, Office of Cyber and Infrastructure Protection, Cybersecurity and Infrastructure Security Agency (CISA), and Director, Schar School Center for Cybersecurity (CSCyber)

March 24: Industrial Cybersecurity: Protecting America’s Critical Infrastructure

April 14: Security for a Dynamic Digital World

May 19: Cybersecurity in the Age of the Internet of Things
