The one-hour town hall will provide a brief 'state of the university' update and discuss how unit goals and strategies fit within the overall plan. President Washington also looks forward to hearing directly from you and the Mason Science Community.

Participatory leadership and shared governance are crucial components of our success. With new leadership, new faculty members, and new student, staff, and alumnae/a members of the Mason Science Community, it's an exciting time, happening during a very challenging part of the year. Courses are in full swing.

Your voice matters — Ubuntu. It's an exciting time, happening during a very challenging part of the year. Courses are in full swing.

Ancha Baranova spoke to TGSL. The film features leading female scientists discussing the inequalities they have faced as they write a new chapter in STEM for women.
