A transformation year

A tale of two pandemics.

What it means to care.

Accountant turned activist, Michael Summers of the University’s Center for International Peace and Security (CIPS) and Mason’s National Security Institute (NSI) is the perfect example. Summers is a提醒所有人要尊重人权和考虑到这场灾难的影响。

Over the past year, Summers has worked hard to bring attention to the plight of the refugees from the civil war in Yemen, providing support and resources to those affected by the conflict.

"It's important to remember that these refugees are not just numbers, but real people with real needs," said Summers. "We must work to ensure that they are not forgotten and that their voices are heard.

The annual East Coast Optimization Meeting (ECOM) introduces students and early-career researchers to the current trends in optimization as well as to create a strong networking environment among academia, industry, and the national laboratories. Registration is required.
