Dear Mason Science Community,

There's still time to vote! Don't forget to participate and vote in the Mason Science Faculty Election. Deadline to vote is May 5, 2021.

As if that wasn't exciting enough, then I learned three of the five presidential medal recipients at Mason were awarded with the 2021 Outstanding Partnership, Project and Collaboration Award from SAIL at Mason.

There were many times over the past week I found myself saying the same thing…"I couldn't be prouder of my team."

The university-wide commencement ceremony will be conducted virtually. The ceremony is set for 2 p.m. May 14, 2021. All the Lot L Mini Ceremonies will be streamed on May 10, 2021.

Join Steve Meyers from the University of Wisconsin for a discussion on Paleoclimatology. Email to receive the event. Join Co-Pierre Georg, Associate Professor with the African Institute of Financial Markets and Risk Management at the University of Cape Town for a discussion about his co-authored paper, "Social Learning in a Network." Email to receive the event.

Earn your Resilience Badge from the Center for the Advancement of Well-Being, helps participants achieve a higher level of resilience. The Resilience Badge is an asynchronous program for you to work through at your own pace in Blackboard. The completion of the six modules results in a digital credential in resilience. Mason students and employees can enroll in the program by logging in with their NetID and password.

Mason Science highlights ESP Assistant Professor Craig Smith, who recently interviewed Jagadish Shukla, Professor and Associate Dean of Research and Jean Goodin, Professor and Associate Dean of Research. To conclude Earth Month and celebrate Arbor Day, Mason Science highlights Cindy Smith, Associate Director of K-12 Education and Outreach at the Potomac Environmental Research and Education Center (PEREC). Congratulations to Smith who recently received a Teaching Excellence Award from the Stearns Center.

Researchers test Mason wastewater for COVID-19, testing for the virus in samples from the university community. Researchers analyzed wastewater samples across George Mason's campus and tested for COVID-19 by detecting the presence of viral RNA in the wastewater. Each week, samples of wastewater are taken from sewers and sent to the Center for Teaching and Learning. She and her team at George Mason University have developed a method to use wastewater to track the spread of a virus. The technology can be applied to other regions of the country as the pandemic continues to evolve.

Last week, many across America watched the 147th Running of the Roses, the Kentucky Derby, at Churchill Downs. Horse, Medina Spirit, set a Kentucky Derby record with his seventh career win. Baffert also said, "I couldn't be prouder of my team."

Jagadish Shukla, Professor and Associate Dean of Research, at the Potomac Environmental Research and Education Center (PEREC), will discuss his recent interview with Jagadish Shukla, Professor and Associate Dean of Research, who recently interviewed Jagadish Shukla, Professor and Associate Dean of Research, about changes to the Amazon rainforest. At the" report that envisions a sustainable economy and Director of K-12 Education and Outreach for the Potomac Environmental Research and Education Center (PEREC). Congratulations to Smith who recently received a Teaching Excellence Award from the Stearns Center.
