In the News

On March 12, 2020, I walked out of my office, a bit early since we were told we were going into telework/remote work one to two days per week. Find out more on Mason to reopen campus fall 2021

Message from the Dean

Changing our calendars for the fall 2021 semester. Employees will also return to campus, though the University will pilot a hybrid environment, allowing students telework/remote work one to two days per week. Find out more on Mason to reopen campus fall 2021

RESEARCH & DISCOVERY

Augmented Reality Training Program for Future Scientists

by Professor, Forensic Science

Happening at Mason

Fellini to coordinate research on illusion of mass, the large-scale structure of the universe, dark matter, and dark energy.

Message from the Dean

The initial disruption was not easy. Yet, after a while, many of us found ways to leverage this new flexibility (no more commute around here is a big deal and saves tons of time). Yet, let’s face it, the healthy and sustainable ‘New Normal’ might look like.

Message from the Dean

With changing CDC guidelines and vaccine availability, our society can start to think more about what a healthy and sustainable ‘New Normal’ might look like.

Message from the Dean

Many had the initial concern that reopening would not be safe. Yet, the health, safety, and daily livelihood were established and better understood, we collectively pivoted to a virtual work environment, finding ways to navigate this uncharted professional landscape. Then some of us ventured back to campus slowly for hybrid learning and working.

Message from the Dean

If we can be patient, the University will be able to provide a safer and more enjoyable environment for students, faculty, and staff to happily return to campus in the fall. Read more on Mason to reopen campus fall 2021.
