Nominations are now open
Save the Date: Celebration of Success
Join us for a lecture on “The Selfish Microbiome and Human Cognition” from November 18, 2021 | 6:30 p.m.
Galileo's Science Cafe
Join us for a Smithsonian Associates Lecture with Sara Seager, a professor of physics and planetary science at Massachusetts Institute of Technology (MIT), as she discusses her work on exoplanets and the potential for supporting life beyond our Solar System. November 17, 2021 | 6:45 to 8:45 p.m.
Experience first-hand how our decisions affect others in the world. Unique and memorable, the Hunger Banquet helps raise awareness, as organizers and participants alike experience the reality of hunger and food insecurity. Mason students, faculty, staff, and alumni are invited for powerful well-being conversations on racial injustice. Mason Hunger Banquet November 17, 2021 | 9 a.m. to noon
Professor, Michael Buschmann, Department Chair and Professor, Chemistry and Biochemistry, received $498,998 from the Food and Drug Administration for the development of mRNA LNP-based vaccines, a novel platform for de novo vaccine development. Wednesday, November 10, 2021
Find out more about their study and how their research will impact the future of vaccine development.

The Mason community is invited to the Title IX Coordinator Candidate Open Forum at 1 to 2 p.m. on November 19, 2021. We invite Mason employees to join us and share your thoughts about the Title IX Coordinator role and the process to select their candidate. Attendees will have the opportunity to ask questions from the candidate and other members of the search committee.

Professor, Jim Kinter, received $498,998 from the Food and Drug Administration for the development of TRUEREMOVE®, a medical device to remove pathology from the lungs. Wednesday, November 10, 2021
