Jose Hernandez MA '86
Hernandez shared his incredible version of the American Dream. Born into a family of migrant farm workers, toiling in the fields by the age of six, Jose dreamed of traveling into space. Despite not speaking English until the age of 12 and being turned down by NASA eleven times, Jose persevered and ultimately was selected as the first Mexican-American astronaut and spent two years in space.

Former NASA Astronaut, Hernandez, recently visited campus to give a talk to a select group of graduate students. In his talk, titled "Reaching for the Stars," Hernandez shared his incredible version of the American Dream.
