A Message from Dean Genetti

Dear friends,

At UCSB, we have been working hard to support our students, faculty, and staff during this challenging time. We are deeply grateful to all of our alumni for your continued support and dedication.

We have created a set of Corporate Affiliates that resides on the GradPost and that we are using TrueRemove® to prevent the next pandemic. Graduate students investigate the inner workings of well-known infections to unravel a virus.

We appreciate all of your support as we work hard to ensure that our graduate student community and both the Graduate Division and the Graduate Student Resource Center are providing all of their regular services via email and Zoom calls. We are all in the midst of an incredibly challenging time in the global response to COVID-19.

In addition, we are offering only remote instruction for the Spring Quarter. Additionally, all on-campus research has been shut down. This is obviously having a large impact on our graduate student community and we are working hard to assist them in this difficult period. We are offering a variety of virtual resources, including webinars and workshops, to help students stay connected and engaged.

If you have a milestone that you would like to share, please contact John Lofthus at Milestones. We would love to hear about your achievements and share them with the UC Santa Barbara community.

We encourage you to stay connected with the university through our virtual events and programs. Our commitment to providing a high-quality education and research experience is unwavering, and we are dedicated to supporting our students and faculty through this unprecedented time.
