The ISE Newsletter provides up-to-date information on conferences, funding opportunities, and businesses and organizations—so that, together, we can more effectively address the world's needs by water professionals and institutions. The meeting will also study how new Capacity for the Water Sector.

The Symposium will convene key stakeholders to explore the skills, knowledge and attitudes needed by water professionals and institutions. The meeting will also study how new Capacity Development to Implementation Science.

The Global Symposium on Soil Biodiversity is being organized by the United Nations Food and Agriculture Organization (FAO) and the IHE Delft Institute for Water Education, the Asian Institute for Water Development, and the National Autonomous University of Mexico (UNAM). The symposium will focus on solutions to protect soil biodiversity and increase its sustainable use and management across different socio-economic and cultural settings.

The Global Symposium on Soil Biodiversity is an international forum for sharing knowledge and experiences in soil biodiversity research, conservation, and sustainable management. The symposium aims to bring together scientists, policymakers, and stakeholders from different sectors to discuss the latest research and challenges in soil biodiversity.

The symposium will address the following themes:

1. Soil biodiversity assessment and mapping
2. Linking soil biodiversity with ecosystem services
3. Soil biodiversity and climate change
4. Soil biodiversity and land degradation
5. Soil biodiversity and human health
6. Soil biodiversity and agriculture
7. Soil biodiversity and conservation

The symposium will also provide opportunities for networking and collaboration, as well as for discussing potential research projects and funding opportunities.

The symposium will be held in online format from January 27 to January 30, 2020. Registration is open to all interested parties, including researchers, policymakers, and practitioners. The symposium will include keynote speeches, Panels for discussion, and other sessions.
