Internal Controls Checklist Updated

The internal controls checklist has been recently updated, and you can obtain a copy of the current checklist on Blink: [Best Practices in Internal Controls](#). Please note that the checklist continues to evolve as implementation begins with campus departments.

Please refer to [KB0033904 FAQ: Internal Controls Checklist](#) for answers to Frequently Asked Questions.

For further questions, please submit a ticket via [Services & Support](#) [About Financial Accounting, *Related to Internal Controls, More Specifically: Internal Controls Support*] or [Meet with ICA](#).

New Subledger Transaction Correction Form, Replacing Non-Salary Cost Transfer Form

A new form has been created to assist users in submitting requests for corrections between the sub-ledger and general ledger, ensuring that the request is routed to the correct office to be appropriately assisted. This includes errors on various exception reports such as the GL-PPM Reconciliation report, Costs on No Project, and more. This will replace the Non Salary Cost Transfer form and is available on April 18. Come to [Fund Manager Office Hours](#) this week from 11:00 AM - 12:00 PM to learn more!

PPM Contract Amendments

Due to an increase in contract amendment requests to edit chartstring elements without correcting prior existing invoices, the decision to require an exclusive chartstring to flow through all invoices on a single contract has been implemented henceforth.

The negative downstream impacts of amending chartstring elements (Revenue, Fund, Account, Financial Unit/Organization) to contracts that cause more than one chartstring to be issued on a single contract cause multiple accounting issues and complicated cleanup projects.

- You may duplicate the existing contract, change the necessary elements, and create new invoices, as needed, to prevent further accounting issues if the new PPM invoices need to reflect a change in any of the chartstring segments.
- Any existing S&S cases and contract amendment requests invoiced with differing chartstring elements are currently undergoing analysis; please be patient as our team continues to work with department members to resolve these issues.

- When submitting contract amendments, please note the reason in the Comments section to prevent amendment request rejection.

New Hotel Nightly Rate

Per the G-28 Travel Regulations policy, the nightly lodging rate has increased from \$275 (before taxes and fees) to \$333 (before taxes and fees). This change is effective immediately. Lodging expense reimbursements must be supported by original itemized receipts (hotel folio), regardless of the amounts incurred. If the traveler cannot secure lodging at the new rate, additional documentation needs to be provided; such as price comparisons of other hotel rates in the same area. Obtaining comparison documentation should be done at the same time as the hotel booking. Additional information on claiming lodging expenses can be found on the [Travel: Meals & Lodging](#) Blink page.

Note: If you have an expense report in progress or pending approval and would like to make corrections, simply Recall the expense report. If you have questions, please submit a [Services & Support](#) case and select “Travel Reconciliation How-To” under the More Specifically drop-down menu.

Cost Transfer Workflow Step Updated: IGNORE "Rejected by workflow system"

A "behind the scenes" step in the Cost Transfer workflow has been updated to prevent transfers from auto-completing when they're withdrawn from "Created by Me" (See Weekly Digests from 10/10/23 through 10/31/23 for additional details). The workflow step will now show as "Rejected by workflow system"; However, you can **IGNORE** this as it does not reflect the actual status of the transfer. Unfortunately, this step cannot be hidden from view.

To confirm the status of your transfers, please use the [Transfers by Status](#) report on the Project Cost Transfer panorama.
