We have completely redesigned the BI & Financial Reporting Get Help Blink page to establish consistency and accessibility by streamlining training, resources, learning, and connections with BI & Financial Reporting. Our Get Help page will help you identify your resources based on the following questions:

- What can I do on my own?
- Who can help?
- Where can I download a copy of my report?
- Could I help escalate?
- How do I suggest enhancements?

More specifically, a new page called Reporting Workshop Blink page is designed to help the Budget & Finance community, including faculty or staff with financial information in OFC. The Importance of Budgeting report will help you identify which report you need for quick links to various resources available to you.

Benefits:
- An exciting Airfare Deposit Program.
- Explore the many benefits provided in UC's contracts with the major airlines, hotels and car rental companies and learn how to register today.
- There were a lot of enhancements in Travel & Expense and Procure-to-Pay which came out of 2022. Join us in reviewing them for personal travel. UC's Risk Services will also join us to share information on insurance coverage for business rentals.

**Oracle PPM Reconciliation**

A GL-BAH attachment will be displayed in UCPath with the segment order seen in Oracle. Beginning December 12, UCPath is implementing a New Common Chart of Accounts (CCoA) Display Order. This project will update UCPath chartfield ordering adhering to the new UC systemwide standard. The new CCoA Display Order will only impact UCPath users.

**BI & Financial Reporting**

New Common Chart of Accounts Display Order in UCPath
