New Common Chart of Accounts Display Order in UCPaht
Beginning December 12, UCPaht is implementing a New Common Chart of Accounts (CCoA) Display Order. This project will update UCPaht chartfield ordering adhering to the new UC systemwide standard and **will better align** the chartfield order displayed in UCPaht with the segment order seen in Oracle.

Who will be impacted?

- The new CCoA Display Order will only impact UCPaht users.
- **OFC users will not be impacted.** There will be **no change** to data entry in OFC.

For a complete description of this project along with the list of **UCPath pages** impacted by this change, please refer to [UCPath’s New CCoA Display Order Project Space](#).

Advanced Search Office Hours
In case you missed them the first time, on November 7 and November 11, LabViva will be joining [Procure to Pay and Travel & Expense Office Hours](#). They will be available to answer any questions related to the new Advanced Search tool, offering an alternative to the Oracle Procurement search bar. Please take the time to stop by and interface with that team!
Applying DHHS Salary Cap to Non-Federal Grants and Contracts

Sponsored Projects Finance (SPF) has developed an interim solution which will allow the Department of Health and Human Services (DHHS) salary cap to be applied to non-DHHS grants and contracts. Fully automating the salary cap on non-DHHS grants and contracts will take time. Today, if you identify any current or new awards that are funded by a private or state sponsors with a DHHS salary cap mandate:

- Department fund managers may submit a Services and Support ticket to Sponsored Projects Finance (SPF) via Oracle PPM Sponsored Project Request. Please attach back up documentation from the Private or State sponsor mandating the HHS salary cap.
- SPF will review and temporarily modify the award in OFC as a DHHS flowthrough
- It may take up to one week for a new combo code to generate in UCPath with a 20701 (Private) or 20403 (State) fund-this will apply the HHS salary cap in UCPath
- To obtain the combo code with the capped fund, Department may go to BAH > HR/Payroll > Combo Code Report and search using the project code
- Once the combo code with the capped fund is generated, SPF will remove the DHHS entity in the flow through information in OFC
- Department will need to use the new combo code generated for funding entries
- UCPath Direct Retros may also need to be processed to reflect the new combo code to payroll expenses from previous earning periods

If you have any questions, please submit a ticket to SPF via Oracle PPM Sponsored Project Request or contact Wella Garcia.

Unallowable Benefits for Post Docs paid on NIH Training/Fellowship Awards

According to NIH, the following postdoc benefits on trainees on Training Grants and Fellowship awards are not allowable:

- Disability Insurance – PSBP
- Life Insurance – PSBP
- State Worker’s Comp Ins

To account for the above as calculated in the Composite Benefit Rates, please use the following rate for Post Docs excluding the unallowable CBR components is:

- FY20: 20.76%
- FY21: 21.38%
- FY22: 20.63%
- FY23: 18.68%

If they were previously charging the full rate, the following percentages need to be deducted to account for unallowable benefits:

- 5.61% for FY20
- 5.47% for FY21
- 5.38% for FY22
- 6.14% for FY23

Department Fund Managers and Sponsored Projects Finance will work together to process a cost transfer to move the unallowable benefits to a general project.
