The 8th World Sustainability Forum (WSF2020) is providing funding for research in the fields of environmental science, sustainability, and related topics. The biweekly newsletter aims to discuss practical insights from data collection activities in four global contexts, including India, Nepal, USA, and global perspectives from the World Food Programme (WFP).

COVID-19 is placing unprecedented strain on health and food systems, threatening decades of progress. The unprecedented challenges posed by the COVID-19 pandemic to the United States and the world are being addressed at the 8th World Sustainability Forum (WSF2020). The forum will focus on the intersection of science, policy, and practice. The panel will discuss "COVID-19 is Reshaping our Government, Economy, and Society". The panelists include Amira Roess and Edward Maibach.

Specifically, the training provided to fellows is built around a collaborative approach that values tools and perspectives to help participants cross traditional disciplinary and sector boundaries. The training includes solidifying the team, maturing the project plans, and preparing to submit a well-drafted proposal. NOI should include the following: Solicitation Name; PI, Co-PI, and collaborators' names; and process that is restricted to Mason faculty. Visit Mason's Financial Assistance Program website for more information.

Additional Funding Opportunities include the Supporting the Medical Society Consortium on Climate and Public Policy in the Pandemic Age. The panel will discuss how society can recover to a more resilient and sustainable state. The panelists include Tom Lovejoy, Amira Roess, and Andrew Light.

Register for the Mason International Faculty Lightning Talks for Mason International Resilient Communities against Transnational Gangs: Northern Virginia. The event will explore how society could recover to a more resilient and sustainable state. The panelists include Edward Maibach, Mariely Lopez-Santana, and Sally Lahm.

The ISN faculty directory is a tool for you to find others with complementing expertise and for information for the directory. The NNA Working Group is a research and action competition in the Smart and Sustainable Communities of Practice are co-partnered to support novel projects.
