Measuring Food Insecurity in the Era of COVID-19: Insights from four global contexts

The objective of this solicitation is to support Coastal Research Environments (CoPe) working groups that are developing full proposal for Stage 2. Only awardees of Stage 1 will be eligible to submit Stage 2 proposals. Each NNA-funded project is responsible for its own performance, including its core research activities to the broader scientific community and the public. The lead PI of the successful projects will receive up to $5,000,000, depending on the breadth and complexity of the project.

The NextGen Grant seeks to invest in social innovations that aim to improve the lives of newborns and children across the world. Join Mason faculty are invited to attend a lightning talk session hosted by the Mason International Public Policy in the Pandemic Age.

The fellowship offers mid-career researchers working in the area of environmental sustainability a unique opportunity to develop a collaborative approach that values tools and perspectives to help participants cross traditional disciplinary and sector boundaries. Specifically, the training provided to fellows is built around a collaborative approach that values tools and perspectives to help participants cross traditional disciplinary and sector boundaries.
