The Institute for a Sustainable Earth (ISE) is an international scientific conference that aims to connect members of the Mason community and the larger academic community. The conference is focused on sustainability and aims to promote transdisciplinary projects.

The conference is partnered to support novel ideas and research in the field of sustainability. Attendees will have the opportunity to present their research and ideas in a variety of formats, including panel discussions, workshops, and keynote speeches.

The conference will also feature keynote speakers from leading organizations in the field of sustainability, including the National Academy of Sciences, the National Academy of Engineering, and the National Academy of Medicine. These speakers will discuss the latest research and developments in the field of sustainability.

The conference will be held virtually, and participants will be able to attend from anywhere in the world. The virtual platform will include a variety of features, including live video streams, chat, and social networking opportunities.

The conference will be free to attend, and registration is open to all interested individuals. For more information, please visit the conference website.
