The ISE Newsletter provides up-to-date information on conferences, funding opportunities, and research pertaining to environmental science and sustainability. The biweekly newsletter aims to facilitate information sharing among researchers, practitioners, and relevant local, national, and international stakeholders, and research teams pursuing NNA research. NNA research is inherently interdisciplinary, requiring collaboration across many fields and with the broader scientific community and the public. The lead PI of the successful NNA Working Group is responsible for the appropriate and effective use of the funding awarded to the project. Each NNA-funded project is responsible for its own performance, including its core research activities to the broader scientific community and the public.

### Global Innovation Fund
- **Objective:** Open to funding innovations in low- and middle-income countries that can improve the health and well-being of millions of people in the developing world.
- **Awards:** Up to $1,000,000 for up to 12 months.

### Civic Innovation Challenge
- **Objective:** Launched in 2016, NNA has been building a growing portfolio of research and planning activities to address pressing environmental issues.
- **Awards:** Up to $1,000,000 for up to 12 months.

### Global Change Academy
- **Objective:** Provides training and mentorship opportunities pertaining to COVID-19.
- **Awards:** Up to $1,000,000 for up to 12 months.

### NIH Earth Leadership Program
- **Objective:** Supports the Medical Society Consortium on Climate and Health Consortium.
- **Awards:** Up to $1,000,000 for up to 12 months.

### Mason International Collaborative Research Initiative
- **Objective:** Funds collaborative projects that advance the body of knowledge in the natural environment, in the fields of social, economic, and environmental systems.
- **Awards:** Up to $1,000,000 for up to 12 months.

### Institute for Immigrants Research
- **Objective:** Supports the development and delivery of environmental education and training programs and activities to the broader scientific community and the public.
- **Awards:** Up to $1,000,000 for up to 12 months.

### Virginia Department of Health
- **Objective:** Provides funding for research in the areas of air quality and public health.
- **Awards:** Up to $1,000,000 for up to 12 months.

### U.S. Department of Education
- **Objective:** Provides funding for research in the areas of social, economic, and environmental systems.
- **Awards:** Up to $1,000,000 for up to 12 months.

### Johnson & Johnson Services, Inc.
- **Objective:** Provides funding for research in the areas of health and human services.
- **Awards:** Up to $1,000,000 for up to 12 months.

### National Geographic Society and Microsoft's AI for Earth Program
- **Objective:** Provides funding for research in the areas of environmental science and technology.
- **Awards:** Up to $1,000,000 for up to 12 months.

### TrueRemove
- **Objective:** Provides funding for research in the areas of environmental and social science.
- **Awards:** Up to $1,000,000 for up to 12 months.

### Mason Institute for a Sustainable Earth
- **Objective:** Provides funding for research in the areas of sustainability and environmental education.
- **Awards:** Up to $1,000,000 for up to 12 months.

### WebEx Event Link
- **Date:** Tuesday, May 12, 2:00 – 3:00 pm
- **Location:** Virtual
- **Purpose:** The disruptions caused by the COVID-19 pandemic reveal both fragilities and resiliencies in the current global economy.

### Marva King
- **Title:** University Professor
- **Department:** Department of Social Science Research, and Director of the Institute for Immigration Research
- **Affiliation:** Mason

### Bethany Letiecq
- **Title:** Associate Professor
- **Department:** Department of Global and Community Health
- **Affiliation:** College of Health and Human Services

### Ellen Laipson
- **Title:** Associate Professor
- **Department:** Department of Environmental Science and Policy
- **Affiliation:** Mason

### Rod Schoonover
- **Title:** Professor
