**Prominent scientist to speak at Clemson on April 12**

Moshe Sniedovich, a professor emeritus at the Hebrew University in Jerusalem and a member of the National Academy of Sciences, will give a public lecture on April 12 from 2:30-4:45 p.m. in the Watt Family Innovation Center Auditorium.

His talk will focus on mathematical and economic models for understanding the interplay between the human and natural environments. Sniedovich, who has conducted research in fields ranging from operations research to the prediction of epidemics, draws extensively on his experiences as a consultant to the World Bank. His work includes developing mathematical models for controlling various diseases, from leishmaniasis to tuberculosis, and for designing an electromagnetic cannon.

Sniedovich earned his B.S. in applied mathematics from the Hebrew University and his M.S. and Ph.D. in operations research from Stanford University. He was a postdoctoral fellow at the University of Oxford and has been a researcher at IBM’s Thomas J. Watson Research Center and a professor of operations research at the Hebrew University.

**SCIENCE partners on T.I.G.E.R. Field Day**

This spring marks the return of Clemson’s T.I.G.E.R. Field Day to the Littlejohn Coliseum during the spring football weekend, April 6-7.

The event will give elementary, middle, and high school students, faculty and friends in support of the University’s greatest needs. This year’s annual Clemson’s Give Day 2019 will be an energetic, 24-hour focus on giving for alumni, parents, staff, and students.

T.I.G.E.R. Field Day is a way to give back to the Clemson Aggies—our college, our university, and our community. It is a day to give thanks for all of us have received on the journey toward kids, but last year the adults had just as much fun.

Since 1974, T.I.G.E.R. Field Day has been a tradition of giving that has grown into one of the largest and most anticipated events held by the College of Science. It’s a day to express gratitude to the people who have made our college great: professors, staff, alumni, friends, and students.

The event will start at 8 a.m. on April 3. For more information, contact Julie Tovey at jtovey@clemson.edu.

**Miss Clemson sees the beauty in science**

Morgan Nichols is a senior in the College of Science’s department of genetics and biochemistry. Nichols was recently named Miss Clemson. Her platform “Stronger with STEM” inspires students to follow in your footsteps.

Nichols says she wants to make the world a better place using science and being a role model to others. As Miss Clemson, she hopes her platform can help students, faculty, and friends be encouraged to pursue STEM careers.

Nichols says she hopes her platform can help raise awareness of STEM and the importance of education. “We need to encourage people to continue education by paying attention to their skills,” Nichols says. “I believe that we need to encourage people to pay attention to their skills and become what they want to be.”

Our SCIENCE faculty and staff are just as excited for May as you are. Please take a minute and say THANK YOU to that special advisor, professor, staff member, or custodian. It will make their day.

---

**Spring has finally arrived!**

Spring brings a program event of every day that brings joy to your family. If you have a new pug puppy, it will be a happy event if you bring the little puppy along with you to Science Field Day and other major science and technology events during the spring season, all of them intended to inspire and educate young minds.

The event will help you create a meaningful and long-lasting impact on your child’s life. It will provide an opportunity to learn about natural science and technology fields, to gain a better understanding of the world and its wonders.

Spring is the perfect time to explore the college again and see how the culture has grown, with new faculty, staff, and students. Join us in this special event and celebrate spring at Clemson University.

**Important dates to remember**

- **April 3:** Clemson’s Give Day 2019
- **April 5:** The Spring Football Game is scheduled for Saturday, April 6.
- **April 7:** The Spring Break brings a gorgeous week of sunny, crisp days in bloom! Hope your Spring Break goes well.
- **April 8-12:** Spring has finally arrived!
- **April 14:** Doctoral Hooding in Brooks Center at 7 p.m.
- **April 18-19:** Men of Color National Summit
- **April 21:** Mike Brown, the “man who killed Pluto,” wows the crowds at Clemson on Feb. 21
- **April 25-26:** TRASH TALK TIGER!
- **April 29-May 3:** Doctoral Hooding
- **May 9:**-important dates to remember
- **May 9-10:** Give Day to bring together Clemson Family on April 3
- **May 10:** Graduation ceremonies: Bachelor, Master, and Doctor’s degrees.
- **May 14:** TIGER Field Day

**SCIENCE partners on T.I.G.E.R. Field Day**

T.I.G.E.R. Field Day is an event that celebrates the achievements of our college to enhance your experience. These hills are magical. Consider a gift—no matter how small—to honor those who helped make your experience so special and to help those who are following in your footsteps.

Our college and its partners are committed to our mission, which is to provide a world-class education and research experience to our students. We are grateful for your support and appreciate the opportunity to work with you to fulfill our shared mission.
