Spotlight on Inflection EPCS:

Inflection, a healthcare identity management and verification provider, has organized Electronic Prescribed Controlled Substance (EPCS) Identity-proofing Service, which specifically targets the Healthcare sector. The EPCS system enables prescribers — physicians and healthcare practitioners — to write and transmit prescriptions for controlled substances electronically to increase safety and security. Inflection's Electronically Prescribed Controlled Substance (CSP) at Level of Assurance 3 (LOA3) certification is a Kantara Approved Credential Service Provider (CSP) at Level of Assurance 3 (LOA3) for Education for Inflection's EPCS system. Inflection is an Approved Boarding Subcarrier (APS) and provides the necessary, which is unique to EPCS. The EPCS system meets federal requirements — including federal and state laws — and offers a 30% discount on the cost of a certified Level of Assurance 3 (LOA3) identity-proofing provider.

Kantara Educational Foundation:

The Kantara Educational Foundation (KEF) has appointed Mary Ellen Condon as Executive Director, continuing the many benefits of the Foundation's transition to Kantara in 2018. Armed with its non-profit determination letter from the IRS, the KEF has appointed a role she held at IDESG up until its assets were transitioned to Kantara in 2018. KEF has appointed an additional Non-Executive Director, Carol Wallis. The KEF has a clear mission to seek sponsorship and grant-funds to fulfill its education and outreach mission.

February Newsletter:

Welcome to the February newsletter! This month, we will highlight some top news from our network. Read More

Work Group News:

The working groups have been busy to kick off 2020! They, like all the Kantara community, have fully embraced working remotely and continue to work with passion and determination. The Identity Assurance Draft Recommendation. Please check your email to receive our future emails.
