---

**Administrative**

**New Commitments Blink Page**

A new Blink page is available to assist with identifying outstanding commitments. The page provides a list of obligations and associated information, such as the status, due date, and transaction type. It also includes buttons for actions such as canceling or releasing obligations.

---

**Procurement & Payables**

**Recharge Cost Transfers**

New cost transfer functionality has been added to the Recharge system. This allows for the easy transfer of costs from one project to another. Instructions for how to use this feature are available in the Recharge cost transfers guide.

---

**Finance**

**Oracle Financials Cloud**

A new report has been added to the Oracle Financials Cloud. The Personnel Expense Projection Report allows users to forecast staffing expenses for the future. Instructions for how to use this report are available in the UCPath Finance Community of Practice.

---

**Training & Events**

**Oracle: Buying and Paying for Financial Unit Approvers**

A new on-demand ecourse is available as a prerequisite to the live course. This course will help users understand the importance of buying and paying for goods and services. It provides new content, new exercises, and focuses on the most key concepts.

---

**Miscellaneous**

**New Feature**

Two new reports have been added to the Budget & Financial Management Reports Panorama. These reports provide additional insights into the financial operations of the university. Instructions for how to access and use these reports are available in the Business Analytics Hub.

---

**Other**

**Payment Compass**

A webinar series is available to help users navigate the Payment Compass system. Each webinar covers a different aspect of the system, such as invoices or Concur travel requests. Instructions for attending these webinars are available in the Training & Events Calendar.
