Drop-In Advisor Meetings

As you are thinking about your schedule for winter term and beyond, take advantage of the drop-in hours with advisors **Jon Rousseau** or **Paloma Harrison**. Feel free to stop by the Anthropology Department in the conference room on **Tuesdays 11-noon** and meet with one of these excellent advisors. They are eager to meet with you and help guide you in course planning to fulfill graduation requirements.

You can also make an appointment to work with them by phone or in person in Smith Advising Center (**SMSU M305**).

- **Paloma Harrison** (for PSU ID numbers with the last two digits 00-49):

- **Jon Rousseau** (for PSU ID numbers with the last two digits 50-99):

<https://jon-rousseau.youcanbook.me/>

Winter Courses

Anth 409: Archaeology Lab Practicum

Instructor: Shelby Anderson

Tuesdays and Thursdays: 2-3:50pm

The goal of this course is to introduce students to archaeological lab processing methods and techniques through practical lab experience. The course is a mix of lecture, reading, lab instruction, and lab work, with an emphasis on hands-on learning and practice of skills. Students will engage in a variety of lab activities including sample cleaning, cataloging, photography, bulk sample sorting, radiocarbon sample preparation, and preliminary artifact analysis.

Anth 452/552: Lab Methods in Archaeology

Monday and Wednesday: 2-3:50pm

Instructor: Virginia Butler

This 4 credit course introduces students to the method and theory behind classification of archaeological remains and will focus on lithics--flaked and ground stone. Class will involve a mix of lecture, discussion and hands on analysis and classification of archaeological remains. Students will put their new knowledge to work by designing and carrying out a final analysis project. Given the quantitative nature of archaeological data, students will learn to use SPSS (Statistical Package for the Social Sciences) to complete assignments. The Lab Methods course satisfies the "methods" requirement for the anthropology major.

Students could take Lab Methods along with Anderson's Practicum (Anth 409, 4-cr.) and Living Technology: Stone Tools (Anth 399, 1 cr. Stueber). All will be valuable --especially for students seeking to pursue archaeology in cultural resources management or graduate school.

Anthropology 399: Living Technology- Stone Tools

Instructor: Dan Stueber

January 26 and February 2nd: 10:00am-2:00pm

Skilled flintknapper, Dan Stueber will teach a 1 credit course in winter quarter, designed to give students hands-on experience in the techniques of flintknapping; the production of stone tools. Cramer 41. Pass/No pass. For Majors and NonMajors.

Anthropology 414/514: Culture and Ecology

Instructor: Jeremy Spoon

Tuesday and Thursday: 12:00-1:50pm

This course utilizes an anthropological perspective to understand the relationships between culture and ecology, with a focus on Indigenous knowledge and practice. We will explore frameworks for understanding Indigenous knowledge and case studies that address how this knowledge complements contemporary resource stewardship. Students will also develop and share a research project and have the opportunity to participate in a community engagement activity planned by the graduate students.

Anthropology 345: Practicing Anthropology

Instructor: Jeremy Spoon

Tuesday and Thursday: 4:00-6:00pm

This course uses a practical approach to introduce the various careers that are currently available to practicing anthropologists and the skills required to obtain and sustain these jobs. The course includes guest lectures by more than 20 practitioners and the development of a career plan, portfolio, and resume.

Anth 4/512: Research Methods in Social and Cultural Anthropology

Instructor: Michele Gamburd

MWF 10:15-11:20am

Are you ready to put your anthropology into action? This Winter, design and implement your own research project. Learn how cultural anthropologists do fieldwork and gain first-hand experience with interviewing, participant observation, and writing grant proposals.

Advising & Career Services November Workshops & Events

PSU's Advising and Career Services are featuring an excellent series of graduate school and career planning workshops this month.

November 1 | Writing Resumes & Cover Letters | 10:30am - 12pm

November 5 | Should I Go to Graduate School? | 1 - 2:30pm

November 6 | Employer on Campus: U.S. Department of State Info Session | 12 - 2pm | CUPA
Parson's Gallery (URBN 2nd Floor)

November 6 | Writing a Personal Statement | 1 - 2:30pm

November 8 | Intro to Interviewing | 10:30am - 12pm

November 13 | Career & Major Exploration (Part 1 of 3) | 1:30 - 3:30pm

November 14 | CVs and Resumes for Graduate School | 1 - 2:30pm

November 20 | Career & Major Exploration (Part 2 of 3) | 1:30 - 3:30pm

November 21 | Internships Overview & Search Tips | 1:30 - 3pm

November 27 | Career & Major Exploration (Part 3 of 3) | 1:30 - 3:30pm

November 28 | Writing Resumes & Cover Letters | 2 - 4pm

November 29 | Introduction to Interviewing | 10:30am - 12pm

For all the graduate school focused events, you can view the detailed workshop calendar [Here](#).

All of the workshops and events will be held in the ACS offices (**University Services Building, Room 402**), unless otherwise stated.

For more information and the complete list of events, visit the [Online Calendar](#).

Oregon Archaeological Society Roy F Jones Scholarship

Since 1974, the Oregon Archaeological Society (OAS) has awarded the Roy F Jones Memorial Scholarship to students engaged in the archaeological sciences. Our desire is to fund projects that advance our understanding of the unrecorded human history of our region.

The Scholarship has a maximum value of \$1500. It will be awarded in March, 2019.

Applications must be submitted to us by **February 1, 2019**.

Please visit the [Oregon Archaeological Society Website](#) for more details.

Archaeology Field Methods in Alaska

The Adelphi University, Department of Anthropology welcomes applications for the 2019 summer field school in Alaska. Review of applications will begin immediately and continue until the course is full—so submit your application early.

This year, research will focus on the newly discovered Holzman site along Shaw Creek where multiple hearths, large mammal bones, stone tools, and a nearly complete mammoth tusk were found dating to the end of the Ice Age. Join our research team in the scenic Tanana Valley as we investigate the question, who were the First Alaskans?

Taught by experienced faculty with a student-instructor ratio among the lowest available (3:1), this program emphasizes a range of experiential learning opportunities. Already have a field school experience but looking for something more? You can also apply for an advanced program for graduate credit.

For more information about Archaeological Field Methods in Alaska, visit the [Web Page](#) or-- email Brian Wygal: (bwyg@adelphi.edu) and follow this Twitter account: [@mammuthunter](#).

You can also find more information from [this 2-minute short Youtube](#).

[Apply Today!](#)

Archaeological Field Methods in Alaska (0103-332)

Late Pleistocene Archaeology Field School in the Tanana Valley, Alaska

Principal Investigators

Brian T. Wygal, Adelphi University
Kathryn E. Krasinski, Adelphi University
Charles E. Holmes, University of Alaska Fairbanks
Barbara Crass, UAF Museum of the North

Tanana Valley, AK

Undergraduate tuition (4 credits)..... \$3,376
Fees.....\$20
Food and logistics.....\$100
Cost.....\$3496

Includes food and transportation while in the field

University students interested in archaeology are encouraged to apply for the Adelphi University Archaeological Field Methods in Alaska course. With a student to instructor ratio among the lowest available (3:1), you will participate in ongoing research and make new discoveries. Excavate the newly discovered Holzman site along Shaw Creek where we are investigating the interaction of Ice Age people with mammoth and other large fauna. Join us as we investigate the question, **who were the First Alaskans?**

Experience

Alaska and explore the ancient past!

For more information, contact Prof. Wygal at bwygala@adelphi.edu or (516) 877-4111.

Apply Online at <http://anthropology.adelphi.edu/alaska>.

Doris Duke Conservation Scholars Program - - University of Michigan

DDCSP UM is a two-year research and internship opportunity for bright, curious undergraduate students interested in conservation, nature, and the environment.

The DDCSP UM offers unique learning and development opportunities for a diverse group of undergraduate students. It also provides generous funding and alumni support to better equip our scholars to build successful careers in the conservation and environmental fields.

Applications open November 12th, 2018 and the deadline is on February 1st, 2019 with a priority deadline of January 11th.

Apply on the [Conservation Scholars website Here.](#)

For graduate students interested in an environmental summer program, please visit the [Environmental Fellows Program site.](#)

SEAS DORIS DUKE CONSERVATION SCHOLARS PROGRAM UNIVERSITY OF MICHIGAN

The Doris Duke Conservation Scholars Program at the University of Michigan (DDCSP at U of M) hosted by the School for Environment and Sustainability (SEAS) is a two-year conservation-themed national summer program for undergraduate students from diverse backgrounds.

Develop research skills through a research mentorship program in partnership with faculty and graduate students at the University of Michigan (first year scholars).

Experience nature through fun outdoor education including visits to local farms, forests, lakes, national parks, and research sites.

Intern with local conservation/environmental organizations from across sectors in Michigan and develop a professional network (second year scholars).

Doris Duke Conservation Scholars are eager to be immersed in an **experiential learning program** that incorporates **diversity and inclusion** into their understanding of **conservation practices**.

Why DDCSP at University of Michigan?

- Create mentoring relationships with University of Michigan faculty and researchers.
- Network with the environmental community of Ann Arbor, Detroit, and the rest of Southeast Michigan.
- Explore connections between conservation, social justice, diversity, equity, and inclusion.
- Connect with other students passionate about conservation and the environment.
- \$4,250-\$5,200 stipend, plus room and board, and round-trip travel to and from Ann Arbor.
- Travel to field sites around Michigan.
- Eight-week conservation-focused research and internship opportunity (for two consecutive years).
- Community service activities in Ann Arbor, Detroit, and/or Flint.

Important Dates:

Applications open: **November 12, 2018**

Priority date: **January 11, 2019***

(*Completed applications received by this date will be reviewed early)

Application deadline: **February 1, 2019**

Notification of selection: **by mid-March, 2019**

Program dates: **June 1 – July 27, 2019**
