Federal Contract COVID Vaccination Requirements

On September 9, 2021, President Biden signed Executive Order 14042, requiring all federal contractors and subcontractors to comply with COVID-19 vaccination and testing requirements. The order creates requirements for federal agencies to add COVID-19 Vaccine Mandate clauses in solicitations and contracts (and other contract-like instruments) which, in turn, requires many federal contractors and subcontractors to comply with guidance issued by the Safer Federal Workforce Task Force. For an opportunity to learn more and ask questions, attend our upcoming event on November 9th; title TBD.

Information Security Workshop: Secure Your Business

On September 24, the Task Force posted a document on their website with guidance issued by the Safer Federal Workforce Task Force titled "COVID-19 Workplace Safety: Guidance for Federal Contractors and Subcontractors." The document outlines steps contractors should take to protect their employees and customers from COVID-19. CIRAS is offering a workshop on this topic on November 14th. Learn more and register here.

Safer Federal Workforce Task Force

In December 2020, President Biden announced the Safer Federal Workforce Task Force, which is charged with developing comprehensive guidance for federal agencies to ensure the safety of federal workers, contractors, and the American public. The Task Force is comprised of experts in public health, infectious disease, public safety, and workforce management. Learn more about the Task Force and its work here.
