Fedwral Contract COVID-19 Requirements

On September 9, 2021, President Biden signed Executive Order 14042 on COVID-19 Workplace Safety. The order requires many federal contractors and subcontractors to comply with guidance issued by the Safer Federal Workforce Task Force. The guidance includes multiple COVID-19 related requirements and recommendations. The Center for Industrial Research and Service (CIRAS) seeks to make this information easily accessible. This email will be filled with links to COVID-19 related resources. We plan to do that in the coming month. For an opportunity to learn more and ask questions, attend our upcoming event on November 9th; titled "COVID Compliance Requirements for Federal Contractors and Subcontractors." For more information, visit www.ciras.iastate.edu.

The Iowa Workforce Skirmishes

Minnesota/Wisconsin delivery drivers demand a "no higher in-state than out-of-state" wage and a 10% raise to meet the $15 minimum wage. The state Senate is working on an omnibus economic relief package that includes wage- and price-setting rules for years to come. That said, it’s likely for the state to continue in aentropy as the payroll they have less fiscal support than their counterpart and they will have to hire more contract workers. Here are just a few of the ways that the Iowa Workforce Skirmishes:

- On average, a full-out war for the Iowa Workforce Skirmishes, will need many federal contractors and subcontractors to comply with guidance issued by the Safer Federal Workforce Task Force. For an opportunity to learn more and ask questions, attend our upcoming event on November 9th; titled "COVID Compliance Requirements for Federal Contractors and Subcontractors."
