This is a friendly reminder to our colleagues that we have moved our Conference Program Submissions deadline to Friday, April 21, 2023. We encourage you to submit your proposals to the University of Tennessee Teaching & Learning Conference Program Submissions webpage as soon as possible. Our 2023 conference will feature keynote speakers and an array of workshops and events designed to help faculty members and graduate students discover new ideas and teach more effectively to our diverse student body.

in inclusive environments. The staff, faculty, and students of UT are all welcome to attend this year’s conference which will be held virtually on Friday, April 21, 2023.

Don’t Forget...TLI is Here to Help!

Don’t forget to check out TLI’s resources page for more about this topic, and how to successfully navigate it and/or its many consequential impacts it might have on teaching and learning.

TLI is here to help with all of your new semester teaching and learning needs. Below is a short list of recommended resources to consider as you establish an inclusive and welcoming learning environment for your students!

Artificial Intelligence in the Classroom

Artificial Intelligence (AI) is here to stay, and its many consequential impacts it might have on teaching and learning needs. We offer several services for both individual instructors, departments and colleges, including:

Artificial Intelligence in the Classroom

TLI is here to help!

TLI, along with several other offices and units across the university, recognize the growing interest in artificial intelligence and its role in education. To support faculty and staff in identifying how AI can be integrated into their teaching practice, TLI has created the Artificial Intelligence in the Classroom webpage as a resource for faculty members, graduate students, staff, and students. The webpage features a timeline of new developments in AI research, and a list of conferences and workshops held at the university and in the state. The page also includes a list of courses and programs in AI, and links to additional resources, including videos and articles.

TLI Spring 2023 Workshops and Programs Are Here!

This spring, we are offering 5 workshop series to meet the needs of CRC participants and all faculty, staff, and students. Visit the TLI Spring 2023 Workshops and Programs webpage for more information about all the ways she is re-shaping the biology classroom, at the link below.

Teaching & Learning Innovation

Scholarship of Teaching and Learning Support

Teaching & Learning Innovation and its many consequential impacts it might have on teaching and learning needs. We offer several services for both individual instructors, departments and colleges, including:
