USA Gypsum Launches New Website

USA Gypsum is one of the largest gypsum drywall recyclers in the United States, and announces the launch of its new website, research library and eCommerce store at www.usagypsum.com. From the home page, site visitors can select one of the site's dedicated sections by topic. The website features a library that covers every aspect of the industry, including safety information for their employees. It is available for free to all CDRA members, and provides downloadable free reports and guides to site visitors. The website also allows customers to order gypsum products and released Conservation Practice Standard (CPS) Amending Soil Quality Regulations. The gypsum products pages feature an extensive library of research documents and application tips. Gypsum continues to gain popularity as research and experience confirm its effectiveness as a tool to improve on water, air and soil quality. The company continues to document the benefits of using USA Gypsum's products and services, and it provides a variety of tools to help customers estimate the costs and benefits of using USA Gypsum products. Customers can find detailed information on recommended gypsum products and services, as well as on the topics they may need to consider when using the products. Whether it be a rigid 150 lb. to 1,000 lb. box, USA Gypsum provides economical solutions for disposing of drywall and other construction materials. During the past 11 years, USA Gypsum has diverted over 300,000 tons (600 million lbs) of drywall from area landfills, upcycling it for beneficial use in the form of gypsum products. USA Gypsum has been recognized by the national gypsum industry and exempted it from its onerous Non Hazardous Secondary Material rule for waste recycling. USA Gypsum recognizes the C&D biomass as a legitimate fuel and not just the burning of waste to energy. The agency recognizes that USA Gypsum is a legitimate fuel and not just the burning of waste to energy. USA Gypsum recognizes the C&D biomass as a legitimate fuel and not just the burning of waste to energy. USA Gypsum recognizes the C&D biomass as a legitimate fuel and not just the burning of waste to energy.

C&D; World 2017 For Your ConExpo-Con/Agg Badge

The CDRA meeting is a half-day program that focuses on the issues that affect C&D; recyclers across the United States, and it provides an opportunity for attendees to network with industry professionals and learn about the latest developments in the C&D; recycling industry.
