In the event that a member of the campus community tests positive for coronavirus:

Students Currently on Study Away/Exchange Programs
Academic staff members who are monitoring international travel warnings due to the coronavirus. In addition, they are in direct contact with Bennington students currently enrolled in Study Away or Exchange programs at Dartmouth-Hitchcock in Lebanon, NH. For Bennington College community members who have health care providers at Dartmouth-Hitchcock in Lebanon, NH, we are sharing the following announcement:

- Students
- Employees

Students

- A flu shot is Hannaford’s Pharmacy.
- Additionally, it is recommended to get a flu shot if you have not already done so this season. Flu shots are available through healthcare providers and many local pharmacies. The closest place to campus to receive a flu shot is Hannaford’s Pharmacy.

Faculty and staff

- If you develop a fever or respiratory illness symptoms such as a cough or shortness of breath, please call Health Services. Health Services will conduct a screening and evaluation. Calling, rather than walking in, allows a clinician to screen on the phone for any risk factors, make appointments (if necessary), share information, and limit the spread of any illness.
- If you have a fever and/or respiratory illness symptoms such as a cough or shortness of breath, please call Health Services. Health Services will conduct a screening and evaluation. Calling, rather than walking in, allows a clinician to screen on the phone for any risk factors, make appointments (if necessary), share information, and limit the spread of any illness. Please do not self-diagnose.
- Wear two layers of clothing during these cold months.
- Avoid close contact with people who are sick.

Prevention Measures
- Wash your hands often with soap and water at least 20 seconds, especially after going to the bathroom; before eating; and after blowing your nose, coughing, or sneezing.
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if your hands are visibly dirty.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Avoid close contact with people who are sick.
- Wash hands with soap and water afterhand for at least 20 seconds.
- Use an alcohol-based hand sanitizer with at least 60% alcohol.
- Cover your cough with a tissue, then throw the tissue in the trash. If you don’t have a tissue, cough into your elbow, but never into your hand.
- Clean and disinfect frequently touched objects and surfaces using a regular household cleaning spray or wipe.
- Wash your hands often with soap and water for at least 20 seconds, especially after going to the bathroom; before eating; and after blowing your nose, coughing, or sneezing.
- Use an alcohol-based hand sanitizer with at least 60% alcohol.
