November update

RESPECT YOU IN TRICK

November is National Career Development Month! It’s a great opportunity to highlight the career development programs offered here at LSU. The LSU Career Center offers a variety of services to help students navigate their career path. Whether you’re a freshman looking to start exploring your options or a senior ready to graduate, the Career Center has resources to help you. For example, the Center offers workshops and seminars on a range of topics, such as resume writing and interviewing skills. Additionally, they have a career fair every semester that brings employers to campus to speak with students about potential job opportunities. If your Tiger is interested in a particular career field, encourage them to reach out to the Career Center for more information. By participating in these programs, your Tiger can gain valuable experience and make connections that can help them succeed in their future careers.
