

# EAGLES EXTRAS

**Did you know**, that even in elementary grades at CSLA, your children are learning to code? Mr. Rosenow meets with multiple lower grades a day. Here, he is with a first grade class introducing them to Robotics and programming using the VEX 123 Robot. In this hands-on lesson, they explored using the coder and magnetic code cards to train Vector P. Robot (Vex) to do specific behaviors.

## 7th Grade had an exCELLent day!

Mrs. Cowan helped them get some eyes-on observations of their learning about cells. They saw cell walls, membranes, nuclei and chloroplasts in real life, plus saw just how much smaller prokaryotes are than eukaryotes. Wow, say those words more than once!

**Girls Inc. of Chattanooga**, meets with girls in grades 5-9 each week at CSLA. They do projects together and engage in empowering conversations. The organization partners with CSLA to "equip girls to navigate gender, economic, and social barriers and grow up healthy, educated, and independent." To learn more about this community partner click the button below.

Girls Inc

**A planning visit from Playcore**, took place last week. The vision for the new outdoor play space is underway! Stephanie Killingsworth (design rep from Playcore) met with sixth grade students to discuss needs and wants for the new school. See how you can help support funding for the new playgrounds below!

Purchase Strawberries

**The new CSLA building**, is quickly becoming a reality! Check out the latest drone video filmed by our very own Officer Joe to see the progress.
