Contents of this Month's Update

- Rights violations and identity theft.
- CINA researchers at Michigan State University.
- Michigan State University vendor can be given proof of a person's age without revealing other key biometric information.
- Biometric identity privacy.
- A person's identity can be national, biographical or social.
- A powerful way of verifying their identity, whether through voice, person's physical characteristics or biometrics are an increasingly important way of verifying their identity, whether through voice, person's physical characteristics or biometrics.
- Opportunities, such as establishing kinship. It also raises important questions about privacy and identity.
- The threats we have been facing, and will continue to face, are increasingly asymmetric, dynamic, and lightning-quick.
- Gone are the days of assessing the threat by locating your adversary's tanks, planes, ships, and personnel.
- That power must be augmented with imagination and creativity.
- The threats we have been facing, and will continue to face, are increasingly asymmetric, dynamic, and lightning-quick.
- Since the country's founding, we've learned that it is hard to get on top and even harder to stay there, but that is exactly what we must continue to do.
- Preparation, long-term thinking, and a lot of hard work over the horizon, think critically and objectively, and invest in the tools and techniques in creative and imaginative ways to discover and understand these threats.
- The Center's mission, and our research portfolio based on that mission, is to apply the latest tools, strategies for combatting human trafficking based on proven victim-centered enforcement models.
