A NOTE FROM THE VICE PRESIDENT

Dear LSU families,

Midterms are upon us, and spring break (March 14–18) is next week. We know students are excited to have some downtime to recharge amid a busy semester, and they have earned it.

The midway point of the semester is an excellent time for you to reinforce safety, responsibility, and accountability with your Tiger. It's essential

that they have an awareness of their surroundings at all times, day or night, even when they are somewhere familiar; that they remember to make good choices and realize the impact their choices can have on themselves and other members of the LSU community; and they remain mindful of their own physical and mental wellbeing.

I recall road trips during college that depended on far too much coffee and far too little stopping along the way to stretch, hydrate, refocus, and check-in. Remind them to pace themselves and prioritize safety along the way. When they arrive at their destination, it's important to reinforce conversations you've had with them about alcohol use – particularly those that remind them never to leave a drink unattended or accept one from a stranger. Spring break exists because we understand that burnout and stress are real. The more they can rest and relax, the more prepared they will be to finish the semester strong.

Course scheduling begins on March 27, so now is the time for students to start thinking about their fall courses and planning to stay on track for timely graduation. It's always a good idea for them to meet with their academic advisor for scheduling and assistance as they plan their course load.

During their college career, so many situations arise that will be entirely beyond your student's control. However, if they control the things they can (as mentioned above), it will make all the unexpected bumps in the road a little easier to navigate. As always, we have resources and are here to assist at every step.

Sincerely,

Jeremiah Shinn
