February update

KEEPING YOU IN TOUCH

A NOTE FROM THE VICE PRESIDENT

Dear LSU families,

Wednesday was Groundhog Day, and while we never want students to get stuck repeating the same experiences every day, there are times when repetition and reinforcement can promote learning, growth, and progress toward goals.

Even as you give your Tiger the space and autonomy to navigate campus and solve problems independently, it's OK to periodically ask them repetitive questions that reinforce the goals they set for themselves and the future they're working to create with their LSU education. Now is the time to remind them that LSU has the resources to help them when they're stuck, to support them when they're not feeling like their best self, and to propel them forward when they're ready to take on new challenges.

In addition to our world-class resources to support our students academically, we are also committed to supporting their mental, physical, and emotional wellness. This is so important to us that we recently hired an Assistant Vice President for Student Health & Wellbeing whose role is to work all day, every day, to bring together all available resources to foster a culture of wellbeing at LSU. Dr. Daniel Bureau joined our team in August to lead the effort. We're excited about what's possible and optimistic that our focus will make a tangible difference for LSU students.
