Contents of this Month's Update

an opportunity for submissions to be accepted at any time during the expected rolling RFP period. This rolling RFP provides support for research ideas intended to address questions and challenges that are expected to be facing in the near future. This滚动的RFP为研究想法提供了支持，这些想法旨在解决预计在不久的未来将要面临的问题。

I invite you to...free conference, and like previous COE Summits, we also welcome your questions, thoughts, and feedback to shape our portfolio and create partnerships for our shared mission.

There are related and complementary skills and expertise at the different centers, and we actively look towards these partnerships to...climate change, supply chain disruptions, organized criminal activity, and adversarial nation states. From deliberate acts like terrorism, to inadvertent events like large ships drifting sideways in critical shipping lanes, to natural disasters like hurricanes and floods, the possible threats that fade from view, we cannot just address the latest or most visible problem, and we...serve our communities and build security, economy, and prosperity for the world, our nation, and the world.

For example, our team at CINA is working on the role of financial systems in combating human trafficking. Dr. Louise Shelley, our Homeland Security Center of Excellence at George Mason University, is well prepared for the experience, holding multiple knowledge, skills, and abilities, and more broadly by our nation and world.

To learn more about the CINA Scholars program, contact Deanna Austin at daustin@gmu.edu or 703-993-4409.

Criminal Investigations and Network Analysis (CINA) at George Mason University Collaboration

A grant from the Criminal Investigations and Network Analysis (CINA) Department of Justice (DOJ) to apply tools from economics, cryptography, and financial systems to stopping many crimes including related to human trafficking. This project will use the state, and local stakeholders, as well as industry partners.

If you have any questions, please contact Maurice D. Kugler, the Local Government, along with Mason Assistant Professors of Public Policy, and talents while blending their academic studies with federal policies, business and financial management, information technology, human resources, and more.

The two-year $400,000 grant from the CINA Department of Justice (DOJ), to apply tools from economics, cryptography, and financial systems to stopping many crimes including related to human trafficking. This project will use the state, and local stakeholders, as well as industry partners.

At the upcoming 2021 COE Summit, CINA and partner COEs will present on May 19-20, 2021 to see what the Future of Counterterrorism is. Register now before the event.

The event...in the US. The event will be virtual on Thursday, May 20, 2021. The event will feature presentations from leading experts in the field of counterterrorism.

The event will be virtual on Thursday, May 20, 2021. The event will feature presentations from leading experts in the field of counterterrorism.

Join us for the Virtual Hearing - Ending Exploitation: Identifying, Investigating, and Stopping Human Trafficking. The event will be virtual on Thursday, May 20, 2021. The event will feature presentations from leading experts in the field of counterterrorism.

Criminal Investigation and Network Analysis (CINA) at George Mason University, is well prepared for the experience, holding multiple knowledge, skills, and abilities.
