Dear Friend,

We hope this message finds you well. As the summer comes to a close, we wish you a season of rest, renewal, and connection.

Alumni Engagement

We were so glad to host the Senior Illumination this year. This annual celebration offered a diverse array of spiritual practices, including senior interviews and multifaith blessings from our chaplains. The ceremony was held virtually, allowing family and friends to participate remotely.

The University Chaplaincy sincerely thanks all of the students, faculty, staff, alumni, families, and beyond for their support during this year’s Giving Tuesday.

The Work Ahead: Building a Just, Beloved, and Inclusive Nation

This summer, the University Chaplaincy conducted the Spiritual Interests Survey for all incoming students. The results indicate a high demand for programs related to spiritual or ethical life. An update from our alumni is always welcome!

Reckoning, Healing, and Growth

This group will meet biweekly for two months this summer, building community and supporting each other on our personal and collective journeys. This group is open to alumni and friends.

Another way to engage with our community is by signing up for our Summer/Fall Chaplaincy Newsletters. You will receive updates on our programs, events, and resources related to spiritual or ethical life.

Baccalaureate Ceremony

The Baccalaureate Ceremony is an important tradition at Tufts University. It celebrates the achievements of our students and sends them forward in their journey towards the future.

Celebrating 115 Years with the University Chaplaincy

The University Chaplaincy has a long history of serving the Tufts community. We provide pastoral care, support religious and philosophical communities, and educate about the vibrancy of our programs and communities for spiritual and ethical life.

Summer Offering

Summer offerings are still available for the summer. You can also sign up for our Weekly Spiritual Gatherings, which are open to all members of the Tufts community.

The Future is Ours

We are proud to include chaplains from so many identities and interests of students, as well as the spiritual and ethical questions they bring to their lives. Each summer, the University Chaplaincy conducts the Spiritual Interests Survey for all incoming students.

The future is ours, and we are committed to supporting the spiritual and ethical development of all members of the Tufts community.

I wish you a summer of renewal and connection.

Yours sincerely,
