Announcements

New and Upcoming Report Releases

- **New Exceptions Report Release:** Transaction Controls
 - A new Transaction Controls report located on the Department Exceptions Panorama provides information about what expenditure types are restricted on a given project or award and whether any expenditures have been made to restricted expenditure types.
- **Upcoming Report Release:** Transaction Details
 - A **new** Transaction Details report will be released on **May 10**. The new report combines the functionality of the PBED Expenditure Details, the Project Panorama: All Transactions, GL Transaction Details, and Project Cost Details reports, and adds significant additional functionality beyond what is available on those reports.
 - View a demo of the Transaction Details report in [this Thursday's Fund Management Office Hours](#)

For more information on these reports, view the BI & Financial Reporting section **below**.

New Procurement and Payables Emails

As of **May 9**, the emails which suppliers may use to create Services & Support tickets for procurement and payables inquiries will be changing. The email for procurement emails will be changing from procurement@ucsd.edu to pohelp@ucsd.edu. The email for payables emails will be changing from disbursements@ucsd.edu to payables@ucsd.edu.

This change is part of an effort to encourage the uses of our various supplier resources and reduce the volume of auto-generated emails landing in Services & Support that should be sent to Requestors. If you work with suppliers regularly, please encourage them to refer to our [IPPS website](#) for resources on invoice status, invoice submission, registration, and procurement policies. This change will **not** impact Payment Compass; suppliers can still contact IPPS via Payment Compass. For the exact guidance we provide suppliers, you can [review the email](#) we sent our suppliers about this change.

Requisition Reminder Emails Turned Off

We received notice that some approvers were receiving erroneous reminders about requisitions pending their approval even after they had been fully approved. While we work through this glitch, we will be temporarily removing the requisition approval reminder emails. This will not affect the initial notification sent to approvers once a requisition initially enters their approval.

Neta Scientific Punchout is Live!

Neta Scientific's punchout is now live in Oracle! This simplified and centralized purchasing system allows end users to shop Neta's full catalog with UC pricing and easily place quoted orders.

Neta Scientific is a WBENC and MBE certified small business committed to supporting your goals by providing essential lab products, great service and competitive pricing. Their product portfolio includes chromatography and life science consumables, benchtop equipment, and labware products.

Getting Ready for Fiscal Close

We've added a new section to the Weekly Digest to help prepare you for Fiscal Close.

View the [Fiscal Close Updates Blink Page](#)

Submission Deadline: Interlocation of Funds

Interlocation Transfer of Funds (ILTF) to other UC's must be submitted by **May 15, 2022** for Fiscal Year 2022. As a reminder, there is no ILTF processing in June.

Resources:

- [Intercampus Transactions Blink Page](#)

Close/Inactivate Travel/Event Requests

If you have Concur Travel or Event Requests with projects that are closing, and all associated Expense Reports have been processed, then your Travel/Event Requests should be closed to lift the commitments. Concur users/delegates can do so by following these steps:

1. Navigate to the Travel/Event Request
2. Click the *Close/Inactivate Request* button at the top right of the open Request

Note: Travel and Event Requests automatically close 120 days past the Business Travel End Date or Event Date, respectively.

AP Expense Accruals

IPPS will be posting AP expense accruals during FYE 2022. The accrual entries will post in the GL with project numbers for all AP invoices in Oracle by the AP June ledger cutoff date of 07/08/22.

- **IPPS will accrue for expenses dated on or before June 30 including:**
 - Oracle AP invoices **in the system** that are not validated (not accounted to GL/PPM). This does not include invoices entered in payment compass that are not yet keyed into Oracle.
 - Oracle AP invoices **in the system** that are validated but pending approval (not accounted to GL/PPM). This does not include invoices entered in payment compass that are not yet keyed into Oracle.
 - Concur expense reports with Pcard or CTS card charges that are posted in Concur but not reconciled by card holders
 - Concur cash advance that are assigned to travelers with trips that have not been completed or reconciled
- **Recommended departmental actions before FYE 2022:**
 - Minimize outstanding invoices within Oracle by having Requesters and Financial Unit Approvers review/approve assigned invoices/transactions as soon as possible; work with the AP team to resolve any invoice hold issues.
 - Minimize outstanding transactions within Concur by adding charges to Expense Report(s), coding, and obtaining final approval no less than on a monthly basis.

[Oracle: Buying and Paying for PO Requisitioners](#)

Thursday, May 5, 2022

9:00am - 11:00am

This course includes hands-on instruction on the use of Oracle Procurement & Payables. It focuses on topics such as shopping for and purchasing goods and services, searching across UC San Diego requisitions and POs, closing POs, processing nonPO payments, and checking invoice status. This course will be especially valuable for individuals responsible for departmental purchases who want to further their understanding of buying on campus.

Please note the [Introduction to Oracle Procurement & Payables eCourse](#) is a required prerequisite for registration.

Fund Management Office Hours

Every Thursday @ 11:00am - 12:00pm

This week, Eva Thiveos, Divisional Business and Data Officer in Arts and Humanities, will demo the **Transaction Details Report** to be released on **May 10**. The new report allows users to simultaneously search for transactions in PPM and GL using a broad array of parameters to pinpoint any set of transactions. The report also identifies high-risk and potentially miscoded transactions needing further review, and will be acceptable for use in meeting the transaction review internal control requirement.

Next Thursday, Marissa Prough (PPM), Jamie Wheat (Equipment Asset Management), Wella Garcia (SPF), and Linda Gao (ICA) will discuss the proper way to manage equipment fabrications from inception to close.

University Procurement Card Program

Tuesday, May 10, 2022

1:30pm - 4:00pm

Current and prospective cardholders will learn about updates to the card program, common uses, and the Concur processes for both Procurement Card request and transaction reconciliation. Note that this is not an introductory course. Participants must first complete the [associated eCourse](#) available through the UC Learning Center.

Oracle: Buying and Paying for Financial Unit Approvers

Thursday, May 12, 2022

9:00am - 11:00am

This course includes hands-on instruction on the use of Oracle Procurement & Payables. It focuses on topics such as reviewing for and populating POETAF information during the ordering process, approving requisitions and invoices, revising orders, and checking PO invoice status. This course will be especially valuable for individuals responsible for those responsible for approving requisitions and invoices on behalf of their financial unit.

Please note the [Introduction to Oracle Procurement & Payables eCourse](#) is a required prerequisite for registration.

Equipment Asset Management Office Hours

Tuesday, May 17, 2022

Upcoming Report Release: Transaction Details

A **new** Transaction Details report will be released on **May 10**. The new report combines the functionality of the PBED Expenditure Details, the Project Panorama: All Transactions, GL Transaction Details, and Project Cost Details reports, and adds significant additional functionality beyond what is available on those reports. Join the [Fund Management Office Hours](#) **this Thursday at 11:00am** to see a live demo of the report.

- Simultaneously search for both PPM and General Ledger transactions using a single set of prompts.
- Identify transactions on projects associated with any person role.
- Search for transactions associated with a particular Payables or Receivables invoice number, PO number, receipt number, original transaction reference number, or PPM transaction number.

- Eliminate or isolate transactions that have been cost transferred off of a project in PPM.
- Identify all revenue transactions without having to select all revenue account codes.
- If a transaction was cost transferred from another project-task, identify the project-task and number of the original transaction with a link to the original transaction in Oracle to view additional cost transfer information.
- **High-risk Ledger Review:** Identify high-risk PPM transactions requiring review under pre-defined criteria:
 - High-risk expenditure types on sponsored projects
 - Costs posted after the project end date
 - Recharge costs
 - Fabrication costs on non-fabrication tasks
 - Invoices under \$5,000 coded as equipment
 - Mispasted cost sharing transactions

New Exception Report Release: Transaction Controls

Projects are set up with transaction controls that prevent the posting of costs on certain expenditure types. A template is initially applied, but can be overridden to allow certain expenditure types disallowed by the template or add additional restrictions. A new Transaction Controls report located on the Department Exceptions Panorama provides information about what expenditure types are restricted on a given project or award and whether any expenditures have been made to restricted expenditure types. Any posted costs should be reviewed for allowability and transferred off if not allowable.

For more information, see [Transaction Controls or E Codes on Sponsored Projects](#) on the STaRT tool for Award Financial Management.

Campus Budget Office Updates

Core Fund Resource Allocations Survey

The Campus Budget Office **wants your feedback!**

The purpose of this voluntary survey is to gather feedback on CBO's current practice of allocating recurring resource allocations on Core Funds (mostly Fund 13991) on a 1/12th or monthly basis. This brief survey will give you an opportunity to tell us more about your experience managing these allocations anonymously.

The survey should take less than 5 minutes to complete and will close in two weeks on **Tuesday, May 17, 2022**.

Updated Cost Transfer Resources

We are excited to launch a comprehensive Blink page for [Oracle PPM Cost Transfers](#)! This is intended to group various cost transfer key elements together in a single landing page with links to useful trainings and KBAs. Be sure to expand the drawers!

Oracle Tip! Search Award Project Costs with Different Funding Sources

Under *Manage Project Costs*, enter the Award number in the *Contract number* field. This will enable the funding source drop down to display the Funding Source(s) available on the award. Funding Sources are associated with the award, not specific projects. Additionally, you can use the *Advanced Search* function if you want to search for more options other than 'Equals'.

The screenshot displays the Oracle Manage Project Costs interface. The top section contains various search filters categorized into 'Accounting Period', 'Project Information', 'Expenditure Details', and 'Contract Information'. The 'Contract Information' section is highlighted in yellow, showing the following values: Contract Name: STRENGTH HONORARIE SCIENCE STUD, Contract Number: 3007610001, and Funding Source: [blank]. Below the filters, the search results are displayed in a table format. The table has columns for Transaction Number, Project Number, Task Number, Expenditure Type, EIS Project Est. Made, Task Name, Contract Number, Funding Source, Expenditure Organization, Expenditure Date, Equipment Cost in Receiver Ledger Currency, Net Zero Base, O/Ratio, and User Expenditure. The results show four rows of data, all with a Funding Source of GENERAL MEDICAL SCIE and an Expenditure Organization of Biological Sciences Research.

Transaction Number	Project Number	Task Number	Expenditure Type	EIS Project Est. Made	Task Name	Contract Number	Funding Source	Expenditure Organization	Expenditure Date	Equipment Cost in Receiver Ledger Currency	Net Zero Base	O/Ratio	User Expenditure
