research pertaining to environmental science and sustainability. The biweekly newsletter aims to provide up-to-date information on conferences, funding opportunities, and businesses and organizations—so that, together, we can more effectively address the world's crises.

The 8th World Sustainability Forum (WSF2020)

The Institute for a Sustainable Earth (ISE) and MDPI are organizing the 8th World Sustainability Forum (WSF2020) to discuss sustainable and resilient solutions to the current global crises. The event will be held online on June 29-30, 2020.

Pathways To Paris: A Virtual Festival For Our Future

In the midst of the COVID-19 pandemic and the climate crisis, we are seeing a moment of solidarity and a call to action. The COVID-19 and climate crises push us to ask: how do we chart a path forward for a better future? By engaging with the Pathways To Paris: A Virtual Festival For Our Future, from July 13-18, 2020, you can support the fight against climate change and build a sustainable future for all.

COVID-19 and Climate Change: What Role for Science?

In the context of the COVID-19 pandemic, the 8th World Sustainability Forum (WSF2020) is organizing a panel discussion to explore the role of science in addressing the current global crises. The panel will take place on June 29, 2020.

COVID-19 and climate change: What role for science?

In the context of the COVID-19 pandemic, the 8th World Sustainability Forum (WSF2020) is organizing a panel discussion to explore the role of science in addressing the current global crises. The panel will take place on June 29, 2020.

COVID-19 and climate change: What role for science?

In the context of the COVID-19 pandemic, the 8th World Sustainability Forum (WSF2020) is organizing a panel discussion to explore the role of science in addressing the current global crises. The panel will take place on June 29, 2020.
