Creating a Requisition from a Multi-Line Quote

Community of Practice Channel

To support budget preparers throughout the planning process, the Campus Budget Office will be releasing new features for the Campus Budget Office (CBO) system. We are excited to announce the following enhancements:

- You can now filter based on Task End Date.
- The Project Status, Project End Date, and Task End Date columns have been added to the Project Information dashboard.
- A new feature has been added to filter based on Task End Date.
- The new feature automatically identifies the people in all roles.
- The new feature can be accessed through the CBO system.

---

Oracle: Buying and Paying for Financial Unit Approvers

Focuses on topics such as shopping for and purchasing goods and services, searching across UC procurement catalogs, and creating requisitions. This course includes hands-on instruction on the use of Oracle Procurement & Payables. It is recommended for use in the KBA partnership.
