enhanced Clemson Herbarium.

Inside a beloved book, there is a treasure awaiting in the

For every child who tenderly pressed a flower or a four-leaf clover

new research opportunities

research team documented “surfer waves” in the upper atmosphere

rockets to surf the Alaskan sky

in physics

in chemistry

in biology

in math

in computer science

in data science

in health sciences

in engineering

in economics

...and beyond. A very special thanks to the Yoders for doubling every dollar you give!

...and to the students in all SCIENCE majors. Our goal is to complete this endowment within this academic

year, and we are well on our way to making this happen. With special thanks to the Yoder Family

...and to the students now and for generations to come, I am happy to announce a new

General Scholarship Endowment

We are grateful for your support during this time and always. Many of you have reached out with

...and to your face coverings and physical distancing. Science is how we get back to normal. On campus,

...and to the students, scientists, teachers, and staff who respond. Science is how we get back to normal.

...and to the students, non-science majors, and professionals. Science is how we get back to normal.

...and to the students, faculty, and staff who sacrifice and innovate. Science is how we get back to normal.

...and to the students, faculty, staff, and visitors who come together to support each other. Science is how we get back to normal.

...and to the students, faculty, staff, and visitors who provide leadership and guidance. Science is how we get back to normal.

...and to the students, faculty, staff, and visitors who encourage and inspire. Science is how we get back to normal.

...and to the students, faculty, staff, and visitors who work and study. Science is how we get back to normal.

...and to the students, faculty, staff, and visitors who dream and create. Science is how we get back to normal.

...and to the students, faculty, staff, and visitors who support each other. Science is how we get back to normal.

...and to the students, faculty, staff, and visitors who persevere and succeed. Science is how we get back to normal.

...and to the students, faculty, staff, and visitors who come together as a community. Science is how we get back to normal.

...and to the students, faculty, staff, and visitors who contribute their time, effort, and expertise. Science is how we get back to normal.

...and to the students, faculty, staff, and visitors who make it all possible. Science is how we get back to normal.

...and to the students, faculty, staff, and visitors who make it all possible. Science is how we get back to normal.

...and to the students, faculty, staff, and visitors who make it all possible. Science is how we get back to normal.
