enhanced Clemson Herbarium.
basement of Long Hall, the new location of the spruced-up and new research opportunities

space physics.

physics and astronomy's Rafael Mesquita and a multi-institutional

research team documented "surfer waves" in the upper atmosphere

With much appreciation and gratitude for all you do!
There really is something magical in these hills! I wish all of you and your loved ones great

As we welcome home our Clemson Family, I encourage you to stay engaged with us by learning

science teachers. With your help, we can be the first college to reach our $50,000 goal and

commitment to this new endeavor. Amy and Rob Yoder have given $25,000 to this endowment

year, and we are well on our way to making this happen. With special thanks to the Yoder Family

students in all SCIENCE majors. Our goal is to complete this endowment within this academic

we all wear masks and maintain physical distance – and we look out for each other. As we say

We are focused on a Healthy Clemson – United as Tigers.

It's starting to feel like fall in Clemson! The days are becoming sunny, breezy and cool, and

SCIENCE is how we get back to normal

"COVID-19 Consequences of College Continuity Calculator," an

faculty and student collaboration leads to the creation of the

risks on college campuses

COVID-19 online tool estimates

General Education program administrators.
