With much appreciation and gratitude for all you do!

health and bright days ahead.

As we welcome home our Clemson Family, I encourage you to stay engaged with us by learning science teachers. With your help, we can be the first college to reach our $50,000 goal and develop the next generation of health and medical professionals, data scientists, biologists, to-one in helping us reach our goal. Our collective impact through this scholarship will help as a challenge to other friends and alumni to make this happen. Your gifts will be matched one-for making this a part of their larger gift to Clemson, I ask that you also consider a philanthropic year, and we are well on our way to making this happen. With special thanks to the Yoder Family students now and for generations to come, I am happy to announce a new General Scholarship Endowment

messages, questions and gifts as we've navigated the past few months. To further support our we all wear masks and maintain physical distance – and we look out for each other. As we say g Non-linear is how we get back to normal
