Oracle PPM: Temporary Extension

The Oracle PPM Award Temporary Extension is the interim process for assigning roles in the absence of the planned permanent process. This extension provides support for budget, planning, and financial management activities in Oracle. It is in effect until a new process is implemented, which is expected to be available in the future.

- For more information, see the Oracle PPM Award Temporary Extension guide.

Concur: POETAF Values

We have updated the Concur interface to allow developers or users to search for COA/POETAF values directly. This update enhances the user experience by enabling faster and more accurate identification of financial data in Concur.

- Learn more about searching for COA/POETAF values in Concur.

PPM: Next Generation Network Communication Users

The Next Generation Network Communication Users report is available, providing a recharge summary for users. This report is designed to help users understand their network communications usage and costs.

- Access the NGN Recharge Summary Report.

Planning & Budgeting: Budgeting in a Remote World

In this edition of the Digest, we explore the challenges and opportunities of budgeting in a remote work environment. The report highlights tips and best practices for setting up budgets and managing finances without traditional face-to-face meetings.
