Fund Management Office Hours

Every Thursday @ 11:00am - 12:00pm

This week we will have open Q&A. Bring your questions and struggles. Nothing a fund manager does is off the table. Trying to figure out the source of a GL-PPM discrepancy? Can't figure out how to get your direct retro with cap gap to work? See a wire you need to claim but have no idea what to do next? Bring your issue to office hours and phone a friend.

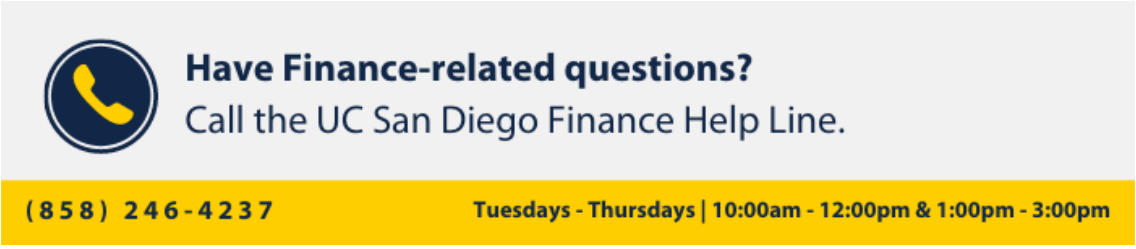

Next Thursday, Marissa Prough will conduct a demo of the newly launched PADUA 2.0 tool. The new tool allows users to update project personnel, project name, project classification, and reporting category, as well as create new general projects. See Announcements for more details.

Quick Tip: Searching with Dropdown Menus

When using a prompt on a Cognos report that is a dropdown menu, don't scroll! Simply open the menu and start typing the first letters or numbers of the value you are looking for. Type as you normally would, without pauses between each letter and number. The list will jump to the value you are typing.

Oracle Preferred Browser

Firefox is the preferred browser for Oracle. Using any other browser while navigating within Oracle can result in disruptions or errors when submitting documents. If you do not have Firefox downloaded, we recommend you do so via their official website.
