
We are excited to announce the launch of the Budget & Finance Fiscal Close Bulletin, a limited-edition newsletter issued from May to July to provide you with weekly updates and guidance related to Fiscal Close. View the second edition here!

Timely updates will be posted on the Fiscal Close Updates Blink page.

Inactive Index Conversion Cleanup Update

In the 02/15/22 Digest, we reported that General Projects in OFC with inactive indexes would be reviewed and closed on your behalf. The process was completed last night. However, there were reports of projects that departments did not want closed, and had impacts on Travel, Maximo, Requisitions, and more. We are rolling back this change and the Chancellor’s ESR FIS Advisory Committee will re-evaluate this issue.
Concur Enhancement: Financial Unit Approver View Update
Integrated Procure-to-Pay Solutions launched a Concur enhancement that will make your job easier when reviewing expense reports that are allocated (split-funded) to multiple Financial Unit Approvers!

- With the latest update, **split-funded reports will only show the expenses allocated to the Financial Unit you are an Approver for** - eliminating the “clutter” and simplifying your calculations.
- To help you navigate this new enhancement, we have updated the [How to Perform Tasks as an Approver in Concur Knowledge Base Article](#) (KBA) with new screenshots and additional guidance.

Thank you to our campus community & IPPS Advisory Committee for continuing to provide valuable and actionable feedback via [Services & Support](#) and during [Office Hours](#).

**IPPS Advisory Committee Interest Form**
We are opening up our IPPS Advisory Committee (IAC) to evaluate membership for the next fiscal year. This committee, attended by several IPPS representatives including our Directors of Procurement and Disbursements/Travel, was originally established to work through ESR changes, enhancements and roadblocks. The committee meets every other Friday, 11:00am - 11:45am. IPPS uses this time for:

- Working through enhancement ideas
- Discussing problems or roadblocks we’re experiencing and potential solutions
- Previewing upcoming developments before they’re launched
- Reviewing complicated situations surfaced by IAC members which we either work out in the moment or follow-up with resolution after the meeting.

Membership in the IAC is a year-long tenure where members are asked to actively engage in discussions, bring a positive solution-oriented attitude, and participate in posting in the Teams Community of Practice. Occasionally, you might join focus groups or be asked to help us with escalated client issues that we’re having difficulty navigating. If you have interest in being a part of this committee, please [fill out our interest form](#) by **May 31**.

**VWR Oracle Content Update**
In an effort to reduce invoice errors and expedite payments the VWR hosted catalog will be turned off on **Friday, May 20**. This means Oracle search results will no longer display VWR products. Products will only be available for search via the VWR punchout. Items may also be ordered using the Goods - One-Time Shipment form.
Due to supply chain issues VWR has been unable to maintain an up-to-date catalog resulting in mis-matched orders/invoices.

- These errors stop for manual review and input from the requisitioner which significantly slows the process and increases workload for everyone.
- IPPS will continue working with VWR to find further improvements in this process.
- The VWR punch-out will not be impacted by this change.

**Fund Management Office Hours**
Every Thursday @ 11:00am - 12:00pm
This week we will have open Q&A. Bring your questions and struggles. Nothing a fund manager does is off the table. Trying to figure out the source of a GL-PPM discrepancy? Can't figure out how to get your direct retro with cap gap to work? See a wire you need to claim but have no idea what to do next? Bring your issue to office hours and phone a friend.

**Oracle: Buying and Paying for PO Requisitioners**
Thursday, May 19, 2022 @ 9:00am - 11:00am
This course includes hands-on instruction on the use of Oracle Procurement & Payables. It focuses on topics such as shopping for and purchasing goods and services, searching across UC San Diego requisitions and POs, closing POs, processing nonPO payments, and checking invoice status. This course will be especially valuable for individuals responsible for departmental purchases who want to further their understanding of buying on campus.

Please note the [Introduction to Oracle Procurement & Payables eCourse](#) is a required prerequisite for registration.

BI & Financial Reporting

Faculty & Researcher Dashboard Payroll Projections
Several enhancements and bug fixes related to payroll projections have been released into production.

- Effort percentages are now shown for each projected month. The report was previously displaying a single average effort percentage for all months.
- Because addition of the effort percentage for each month can make the Payroll Projection Details table very wide, the table has been moved to a second tab on all of the drill-through reports.
- Bug fixes related to the indirect cost calculation, benefits, and inclusion of NGN and/or GAEL have been implemented.

Many thanks to the several people who submitted tickets to make us aware of issues related to payroll projections.
