Alumni couple establishes endowed lecture series to promote intersection of mathematics and business

Our Resilient Clemson Family

Like many of you, we are adjusting to a new reality at Clemson because of COVID-19. I have communications and effective transition strategies for this new normal.

Among these unprecedented times, the Clemson SCIENCE Family continues to accomplish great things that are important to celebrate. I am proud to share with you some good news from the lives of so many students have been upended, and we are amazed at their positivity and

Other情侣成立奖学金及讲座系列，以促进数学与商业的融合

Clemson University professor Apparao Rao of the Department of Physics and Astronomy was selected as a 2020 Fellow of the Materials Research Society (MRS). Rao was honored for his contributions to the understanding of the growth of carbon nanotubes, as well as the scalable synthesis methods to manufacture carbon nanotubes — an area in which he has made significant contributions.
